- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Break: Thanksgiving day plus the Friday and Saturday which follow.
- Holiday Break 2016: December 17, 2016 to January 3, 2017
- Holiday Break 2017: December 18, 2017 to January 1, 2018
- Holiday Break 2018: December 17, 2018 to January 2, 2019

**ABOUT  
ATA CAREER EDUCATION**

**1**

# 1 ABOUT ATA CAREER EDUCATION

## HISTORY

ATA Career Education is owned and operated by ATA-CIF, LLC, a wholly owned subsidiary of ATA College, based in Louisville, Kentucky. ATA College established itself as an Information Technology school, in 1994. In Fall 2003, ATA shifted its focus to allied health training.

In 2010, ATA acquired The Career Institute of Florida, and now serves the Tampa Bay area as ATA Career Education. ATA Career Education offers training in the allied health field, and is accredited by the Accrediting Bureau of Health Education Schools.

## MISSION

ATA Career Education is committed to providing quality instruction, hands-on training and effective career preparation in a comfortable environment that facilitates the learning experience.

## OWNERSHIP

ATA Career Education is owned and operated by A Technological Advantage, based in Louisville, Kentucky. The ATA Board of Directors includes Donald Jones, Brett Weber and Brian Wilson.

## LICENSURE

ATA is licensed by the Commission for Independent Education (CIE), Florida Department of Education. Additional information regarding this institution may be obtained by contacting the CIE at:

325 West Gaines Street, Suite 1414  
Tallahassee, Florida 32399-0400  
(850) 245 3200  
(888) 224 6684

## ATA is approved by the following:

- Florida Board of Nursing - Certified Nurse Aide license #CNAP1475; Practical Nurse license US70411700; Registered Nurse US70111500
- Florida Board of Dentistry, Expanded Duties/Radiology Program
- Career Central Workforce Investment Funding

## ATA is a member of:

- Florida Association of Post-Secondary Schools and Colleges
- Florida Vocational Rehabilitation

## ACCREDITATION – Institutional

Accrediting Bureau of Health Education Schools (ABHES)  
7777 Leesburg Pike, Suite 314N  
Falls Church, VA 22043

## NOTICE

The school, through appropriate action, reserves the right to change any provision or requirement at any time within the student's term of attendance. ATA reserves the right to change fees, policies, regulations and calendar or to revise programs of study as deemed necessary and desirable. Any such changes would only occur provided they are within the terms and conditions of the enrollment agreement between ATA and the student. Additionally no undue hardship or disruption to the program of study would be placed upon the student. ATA will inform students of any administrative changes. ATA also reserves the right to delay and/or cancel a program start when the number of students scheduled to start is too small economically to start the class. A student may elect to accept the new start date or have all monies refunded, if applicable. ATA offers equal opportunity without distinction or discrimination on the basis of race, color, gender, religion, age, marital status, national origin, sexual orientation or disability in any of its activities or employment practices.

# 1 ABOUT ATA CAREER EDUCATION

## STAFF

The staff of ATA is a small team of dedicated professionals who, together, have over two decades of professional and managerial experience in delivering education to adult learners. The principal staff members and faculty for all locations are:

## STAFF

Donald A. Jones, President, CEO, & Board Chair  
10180 Linn Station Road  
Louisville, KY 40223

Brian Wilson, Vice Chair  
c/o Innovative Capital, LLP  
2401 Tee Circle, Suite 102  
Norman, OK 73069

Brett Weber, Chief Operating Officer and Corporate Secretary  
10180 Linn Station Road  
Louisville, KY 40223

## CORPORATE DIRECTORS

A complete faculty listing is included in Addendum A.

# 1 ABOUT ATA CAREER EDUCATION

## LOCATION

Spring Hill Non-Main (Lic. #3957)  
7351 Spring Hill Drive, Suite 11  
Spring Hill, Florida 34606  
352-684-3007

## FACILITY

ATA's Spring Hill campus is approximately 18,000 square feet in size and is located in a retail center on Spring Hill Drive. There are 20 classrooms, a medical assisting/phlebotomy lab, nursing lab and a limited medical radiography lab.

Students have regular access to student services through ATA's personnel. The learning resource system facilities hold a collection of books, journals, CD-ROMs, and computer workstations with Internet access. The learning resource facilities are fully accessible to students during regular business hours. All classrooms are equipped with a white board, and LCD projector. Students use the computer lab to complete computer assignments, as required. Students in the Medical Assistant and Phlebotomy programs are provided with a fully-equipped medical lab, adequate for up to 20 students at a time.

ATA instructs dental assisting laboratory courses at Crescent Community Dental Clinic  
5244 Commercial Way  
Spring Hill, FL 34606

Crescent Community Dental Clinic is an 1100 square foot volunteer based community dental clinic within a 2400 square foot facility. There are 3 treatment rooms with 2 x-ray units, one free standing panoramic dental unit, one sterilization area, one laboratory, patient reception area, and a conference area that students use during their class lab time. The hours that ATA utilizes the separate classroom space are evenings that vary Monday through Friday between the hours of 5:30 and 9:30pm.

## MAXIMUM NUMBER OF STUDENTS IN CLASS

The maximum number of students in a typical classroom or laboratory setting for an Allied Health class at ATA is normally 20.

**ADMISSIONS POLICY**

**2**

## 2 ADMISSIONS POLICY

### ADMISSION PHILOSOPHY

The Office of Admission supports the mission of ATA Career Education. Consistent with the schools mission of providing quality instruction, hands on training and effective career preparation, the Office of Admission seeks to enroll and retain an academically talented student body who show promise of success in school and who enrich the learning community and represent the diverse society they serve.

### GENERAL ADMISSION REQUIREMENTS ALL PROGRAMS EXCEPT NURSING

ATA Career Education's minimum requirements for application in any program are to be either a high school graduate or have a Graduate Equivalency Diploma (GED) from an accredited institution. All applicants to ATA Career Education must authorize ATA to perform a background check. Background checks include, but are not limited to: criminal record check, social security number validation, and sex offender registry check. All information collected in the background check is considered in the admission process. Applicants with felony convictions will not be accepted to ATA Career Education. Additionally, ATA may decline admission to applicants who, in ATA's sole opinion, may have difficulty finding employment in their field of application as a result of issues disclosed on their background check.

ATA's admission process requires prospective students to meet with an admission representative at the campus and tour the campus. If interested the individual will complete an application for admission as well as provide authorization for ATA to run a background check as well as authorization to receive the students transcripts from both high school and college(s) previously attended. At this point the student will complete an enrollment agreement and will be scheduled to attend a new student orientation. Students meet with financial aid to determine what aid may be available to cover educational costs. ATA may deny admissions to an otherwise qualified candidate.

Communicate effectively in English. This criteria must be met by potential students where English was not the first language spoken in their home.

- a. TOEFL Internet-based Test Total of 80 or better
- b. TOEFL Computer-based Test Total of 173 or better
- c. TOEFL Paper-based Test Total of 500 or better

### ADMISSION POLICY FOR PRE-LICENSURE PRACTICAL NURSING PROGRAM

Effective Date: 5/21/2018

In order to be considered for admission to the Practical Nursing program, the applicant must meet the following qualifications:

#### General Admission Requirements:

1. Provide proof of high school graduation or documentation of a General Equivalency Diploma (GED) diploma.
2. Communicate (verbal and written) effectively in English. If the applicant does not demonstrate proficiency, the applicant will be required to provide proof of English literacy via:

Provide evidence of completion of a TOEFL exam at the following level:

- a) TOEFL Internet-based Test Total of 61 or higher.
- b) TOEFL Computer-based Test Total of 173 or higher.
- c) TOEFL Paper-based Test Total of 500 or higher.

## 2 ADMISSIONS POLICY

### **Student will be EXEMPT from the TOEFL if:**

1. The student has successfully completed a full time curriculum (posted passing grades) at another post-secondary institution for at least 2 semesters/terms/quarters where the primary language of instruction was English.
2. ACT composite score of 19 or above.
3. SAT composite score of 1350 or above.
4. PAX composite score of 92 or above.
3. Satisfactorily pass a level II criminal background screening by the end of the first week of class.
4. Satisfactorily pass a 10 panel drug screen test administered by a company selected by ATA by the end of the first week of class.
5. Complete all necessary clinical documentation required to attend clinical.

### **PN Program Entrance Process:**

#### **STEP I**

1. Must meet all the general admission requirements.
2. Must provide documentation of a standard high school diploma or GED. A transcript from any other college previously attended is requested to determine possible transfer credit
3. Fill out questionnaire and schedule an interview with an Admissions Representative.

#### **STEP II**

1. Await admissions notification of formal acceptance into the program.

### **Admission Policy for LPN-RN Bridge Program**

#### **Effective Date: 05/21/2018**

In order to be considered for admission to the LPN-RN Bridge program, the applicant must meet the following qualifications:

#### **General Admission Requirements:**

1. Provide proof of high school graduation or documentation of a General Equivalency Diploma (GED) diploma.
2. Communicate (verbal and written) effectively in English. If the applicant does not demonstrate proficiency, the applicant will be required to provide proof of English literacy via:

Provide evidence of completion of a TOEFL exam at the following level:

- a) TOEFL Internet-based Test Total of 61 or higher.
- b) TOEFL Computer-based Test Total of 173 or higher.
- c) TOEFL Paper-based Test Total of 500 or higher.

## 2 ADMISSIONS POLICY

### **Student will be EXEMPT from the TOEFL if:**

1. The student has successfully completed a full time curriculum (earned passing grades) at another post-secondary institution for at least 2 semesters/terms/quarters where the primary language of instruction was English.
2. ACT composite score of 19 or above.
3. SAT composite score of 1350 or above.
4. PAX composite score of 92 or above.
3. Satisfactorily pass a level II criminal background screening by the end of the first week of class.
4. Satisfactorily pass a 10 panel drug screen test administered by a company selected by ATA by the end of the first week of class.
5. Complete all necessary clinical documentation required to attend clinical.

### **Entrance Process:**

#### Step I

1. Must provide proof of current, active, unencumbered PN license.
2. Must meet all general admission requirements.
3. Must provide a transcript from the school where they studied for their PN license, this transcript must reflect a 2.5 or higher cumulative grade point average.
4. Fill out questionnaire and schedule an interview with an Admissions Representative.

#### Step II

1. Await admissions notification of formal acceptance into the program.

### **HOME SCHOOLED APPLICANTS**

Applicants who have been home schooled will be asked to provide verification that they have completed the minimum course of study and met content standards required for high school graduation as established by their state Board of Education administrative regulations. Applicants should provide a copy of their coursework and grades and, in addition, may be asked to provide portfolio work, ACT or SAT scores, and/or copies of letters notifying the school district superintendent for each year the student was home schooled. All applicants will be required to meet ATA College's general admission as well as programmatic admission requirements. Applicants who are unable to verify that they have completed high school requirements are required to obtain their General Education Diploma before being accepted.

## 2 ADMISSIONS POLICY

### NON-DISCRIMINATION POLICY

ATA is open to all applicants without discrimination on the basis of race, color, gender, religion, national origin, age, marital status, sexual orientation or disabilities in any of its programs, activities, or employment practices. ATA does not discriminate against individuals on the basis of physical and/or mental disability. ATA may provide reasonable accommodations, including auxiliary aids and services to qualified individuals unless providing such accommodations would result in an undue burden or alter the nature of the program or benefit from the program or service provided by ATA Career Education. ATA will refer individuals with disabilities to the appropriate agencies for assistance financially as well as for professional support beyond the scope of ATA. Any disagreements would be addressed through the ATA Career Education grievance procedures.

ATA Admissions Representatives cannot make any guarantees to the applicant with regard to acceptance to the school, transfer of credit to or from the school, or class schedules.

ATA Career Education admits students on a rolling basis. As students are determined to be properly qualified they are permitted to complete the admission process.

### TRANSFER CREDIT/ADVANCED PLACEMENT

#### Transfer of Credit Policy

ATA will evaluate the student's previous education, training and experience to determine if any subjects or training activities in the student's program may be waived and thereby reduce the amount of training or education required for the student to reach the educational objective. Credits earned at an institution accredited by an agency recognized by the United States Department of Education or the Council for Higher Education Accreditation may be accepted on the basis of an official transcript provided by the student. Credit will be awarded where appropriate. ATA will notify the student and appropriate agencies (i.e. Veterans Administration, Vocational Rehab, etc.) upon completion of evaluation and determination of outcome. Transfer credits must be earned in courses that are similar in nature to the course offered by ATA. It is the responsibility of the student to request an official transcript be mailed to ATA College in order for transfer credit to be considered. Any fees associated with transcript requests are the responsibility of the student. All transfer of credit requests must be evaluated and approved within the first week of training at ATA. Transfer credit is calculated in the quantitative measure of satisfactory academic progress. Any credit, advanced placement or credit for experiential learning transferred in that reduces the length of the program will reduce the cost of the total program. Generally, no more than 25% of the total program credits may be applied toward any program of study at ATA. Exceptions to this may be made by Student Services, the Registrar, and the Program Director. Student tuition charges are applied for the credit hours taken by a student in any given quarter of study. The amount charged the student is based on the current tuition and fee schedule. Students who have earned a Bachelor's Degree or Associates Degree at another accredited institution are exempt from taking Success Skills.

#### Non-Nursing Transfer Credit

Courses taken at other institutions may be transferred if they were completed within the last 7 years with a C or better, and are similar in course description and title.

#### Nursing Transfer of Credit

General education courses may be transferred if they were completed within the last 15 years with a C or better, and are similar in course description and title. Core nursing courses may be transferred if they were completed in the last 5 years with a B or better. Any class with a clinical component must be taken at ATA.

The Registrar has discretion to accept or reject transfer credits.

#### Transfer of ATA Credits:

ATA programs are considered to be vocational/terminal in nature and it is assumed that credit for any course cannot be transferred to another institution.

## 2 ADMISSIONS POLICY

### **ADVANCED PLACEMENT/EXPERIENTIAL LEARNING**

Students in all programs may be granted advanced placement based on previous education, experience or licensure. Appropriate documentation will be required to allow for adequate evaluation of previous education, experience, or licensure. Appropriate credit will be applied for any classes and/or advanced placement. The final decision regarding transfer of credits and/or advanced placement will be made by the Registrar and the Program Director. The decision is not subject to appeal. Generally no more than 25% of the total program length may be applied toward any program of study at ATA. Any exceptions to this policy can only be made by the Administrative Manger and the Director of Florida Operations

### **PROFICIENCY TESTING**

Credits may be earned for some courses ATA offers, providing the student passes a proficiency test for that subject (an equivalent grade of 80% or better). No more than 25% of the total program credits may be earned by proficiency examinations and/or transfer of credit or advanced placement.

1. A test out may only be taken one time per student.
2. A student may not test out of a course that he/she had previously started and withdrawn from.
3. A student may not test out of any academic subject in which a grade has been received.
4. The student will receive a grade of "P" if credit is granted. Test out results are not computed in the student's GPA, but are counted as credits completed.
5. Once a test out has been formally requested by the student and contract has been made by the proctor/test out coordinator, the student must complete the test within the 30-day time limit indicated on the test out request form.

### **VETERAN'S CREDIT FOR PREVIOUS EDUCATION OR TRAINING**

Students must report all education and training. The school must evaluate and grant credit, if appropriate, with the training time shortened, the tuition reduced proportionately and the VA and the student notified.

**ACADEMIC POLICIES**

**3**

## 3 ACADEMIC POLICIES

### Social Media Policy

This section outlines governing regulations that apply to all users of ATA College & Career Education social media when posting material online. In some cases, violations could lead to disciplinary action or termination.

- 1. Protect confidential and proprietary information:**  
Do not post confidential or proprietary information about ATA students, employees, or alumni. All persons must follow the applicable federal requirements such as **FERPA** and **HIPPA**, as well as **NAIA** regulations. Adhere to all applicable institutional and legal privacy, confidentiality and property policies and laws
- 2. Respect copyright and fair use:**  
When posting, be mindful of the copyright and intellectual property rights of others and of the College.
- 3. Use ATA intellectual properties only with permission:**  
No user may establish social networking sites that use the ATA College logo or other intellectual properties such as photography, vide, artwork and publications copyrighted to the College without authorization from the College. It is a violation of social networking site policies to represent an institution with out authorization.
- 4. Dissemination official information:**  
Public Relations and other designated offices are responsible for posting and publishing online official information on behalf of the College.
- 5. When using College e-mail:**  
You are accountable for all activity conducted with your College e-mail address or when identifying yourself as a member of the College community. The “@ata.edu” address attached to your name may indicate to others that you are acting on the College’s behalf so be clear when that is not the case.
- 6. Know the terms of services of your social media platform:**  
Be sure to understand and follow the terms of service of any social media platform you use. You are personally responsible for compliance.
- 7. Be accurate and transparent:**  
Have the facts before you post. If you post inaccurate information then correct it quickly. Social networks are successful when they offer authentic and direct communications via user-generated content. Social networks are interactive with a two-way flow of information. If you are representing ATA when posting, acknowledge this by including your name and job title or department as a signature to your post.
- 8. Respect others’ privacy**  
Take care not to post private information concerning others such as e-mail from a colleague or contact information. Please exercise good “netiquette.” Social networks are in the public realm and are not appropriate venues for the discussion or dissemination of private matters.
- 8. Anything posted on the internet is out there for all to see even if later you attempt to delete it, so be careful in what you post.**

## 3 ACADEMIC POLICIES

### KNOWLEDGE OF POLICIES

Each student is responsible for knowing the ATA rules, requirements, and policies. The catalog is the normal publication for policy statements; but corrections, changes, or interpretations can be published by other means, including electronic means, anytime throughout the student's attendance. Students will be notified of any changes, and provided access to the revised catalog upon implementation of any changes. Undue hardship or disruption to the program of study would not be placed upon the student, as a result of any changes applied by ATA.

### ATTENDANCE POLICY

Students are required to maintain a minimum attendance rate of 80% of the scheduled hours in each course to achieve satisfactory attendance. There will be no distinction made between excused and unexcused absences. Students who do not achieve satisfactory attendance may be withdrawn from a course and receive a grade of "W" withdrawn or "WF" withdrawn failing. Absent time will accrue for tardiness and early departure.

Absence beyond 20% level will be reviewed by the retention board (Program Director, Student Services office, and the instructor) upon the student's submission of documentation citing the mitigating circumstances. Mitigating circumstances include serious illness, death of immediate family member, jury duty, military duty, court proceedings. Final determination of mitigating circumstances is up to the retention board.

### VETERAN'S ATTENDANCE POLICY

Excused absences will be granted for extenuating circumstances only. Excused absences must be substantiated by entries in students' files. Early departure, class cuts, tardies, etc. for any portion of a class period will be counted as time absent which accrues to the maximum allowable absence. Students exceeding 20% of the course meetings unexcused absences in a quarter (10 weeks) will be terminated from their VA benefits for unsatisfactory attendance. The student's attendance record will be retained in the veteran's file for USDVA and SAA audit purposes. VA students must show good attendance for one term prior to being recertified for VA educational benefits. Make-up work will not be reimbursed by the VA nor will make-up work be utilized to cancel or otherwise negate absences.

### TARDY POLICY

In order to foster student responsibility, minimize classroom interruptions, and avoid unnecessary embarrassment, it is important that students arrive to school on time. It is for these reasons that ATA administrative personnel have instituted a formal tardy policy. A student is considered tardy if he/she arrives more than 15 minutes after class begins, and that will count toward absent time. A student is also considered tardy if he/she leaves class before the scheduled class ending time. Each tardy will accumulate towards the 20% maximum absence policy. There will be no distinction made between excused and unexcused tardiness.

### MAKE-UP WORK

Students will be required to make-up all assignments or other work missed as the result of any tardiness or absence. The student must make arrangements with the instructor to ensure that all work is made-up before the end of the course in which the work was missed. The instructor may assign additional outside make-up work if deemed appropriate. Arrangements to take a missed exam must be made with the instructor the first class sessions following an absence. It is the student's responsibility to make arrangements with the instructor for time, place, and supervision. All arrangements are subject to approval by the Instructor.

### LEAVE OF ABSENCE

ATA Career Education does not have a leave of absence policy (LOA). Any student requesting leave of absence is treated as a withdrawal and refund calculations are applied accordingly. A student who has withdrawn from school and wishes to re-enter must apply for re-entry by contacting ATA admissions personnel.

### 3 ACADEMIC POLICIES

#### CREDIT HOUR DEFINITION

- 10 lecture hours = 1 credit hour
- 20 laboratory hours = 1 credit hour
- 30 externship hours = 1 credit hour

A clock (or contact) hour is defined as a minimum of 50 minutes of supervised or directed instruction in any 60-minute period. Care is taken in scheduling breaks.

#### GRADING SCALE

All courses at ATA Career Education are graded on a 4.0 scale. Letter grades are issued and traditional Grade Point Averages (GPA) are calculated.

Letter Grade	Definition	Quality Points
A	90% - 100% = Excellent	4
B	80% - 89% = Above Average	3
C	70% - 79% = Average	2
D	60% - 69% = Below Average	1
F	0% - 59% = Failing	0 A grade of F is considered failing.
W	Withdrawn	Not Computed
P	Passing	Not Computed
I	Incomplete	Not Computed
T	Transfer Credit	Not Computed
FR	Repeat	Not Computed
AU	Audit	Not Computed

Externship/Clinical Courses at ATA are taken on a pass/fail basis.

P	Passing
F	Failing

Pass/Fail grades are not calculated in the qualitative progress measure but are calculated in the measure of quantitative process.

A clock hour is defined as a minimum of 50 minutes of supervised or directed instruction in a 60-minute period. ATA expects its students to do outside work each week to support the time in class. This work includes, but is not limited to, assigned reading, research, homework, test preparation, projects, group assignments, practicing learned skills, writing papers and other activities as assigned. For each credit hour of a class a student should anticipate that there will be 5 hours of outside work during the quarter. So for a 4 credit hour class there will be 20 hours of outside work over the 10 week period. Outside work is not applicable to clinical/externship classes.

Courses in the Academic Associate Degree LPN to RN Bridge program utilize the Carnegie unit to calculate out of course time. For each hour of seat time a student should anticipate 2 hours of work outside of class.

Grade point average (GPA) is determined by dividing total quality points earned by total hours earned. GPA is calculated each quarter for all hours attempted at the school-cumulative credit and quality points earned at other schools are not counted toward GPA at ATA. Course completion percentages will be affected by failure to resolve "I" grades and "F" grades. Grades of W, will also affect course completion percentages. Grades of "T" and "P" are not calculated in the student's grade point average, however they are counted toward the course completion percentages. All grades of A, B, C, D, F, W, P, T and I are included in the quantitative satisfactory progress measurement calculations. The grade of AU is not included in the quantitative satisfactory progress measurement calculations.

Outside Class Work/Library Assignments: Students will have reading assignments, case studies, review questions, and web assignments. Students may conduct an in-depth research assignment utilizing resources such as online libraries, primary and secondary research data, case studies, and journal articles. All research must follow the APA format. It is estimated that there is 2-3 hours of outside class work each week per week per course.

## 3 ACADEMIC POLICIES

### NURSING PROGRAM PROGRESSION POLICY

A student at ATA receives grades on attendance/participation, laboratory and project work, written examinations and/or homework. All final grades are given at the end of each 10-week quarter in all subjects taken by the student. Note: final exams are given during the last week of the quarter. Students must achieve an 80% average in each subject taught during each quarter of the nursing program, with the exception of ANA101N, ANA200N, ANA202, ENG200, HUM201, LAS120NA, MAT200, MED100N, MED105A, MIC100, MNA100, PSY202, SOC201 where the ATA grading scale applies. A student must successfully pass theory, skills and clinical coursework otherwise he/she must repeat the entire course.

A student who fails four (4) nursing courses (NPN, PHA, and PRA courses) in the program curriculum will have their enrollment terminated. A student will have two opportunities to be successful in NPN140 and NPN220. A student that fails or withdraws from NPN140 or NPN220 two (2) times will be terminated from the nursing program.

#### Grading Scale (Basic/General Education Courses):

**ANA101N, ANA200N, ANA202, ENG200, HUM201, LAS120NA, MAT200, MED100N, MED105A, MIC100, MNA100, PSY202, SOC201**

90 to 100: A (4.00) ... Excellent

80 to 89: B (3.00) ... Above Average

70 to 79: C (2.00) ... Average

69 and under: F (0.00) ... Failing

#### Grading Scale (Nursing Program/Core Courses):

90 to 100: A (4.00) ... Excellent

80 to 89: B (3.00) ... Above Average

79 and under: F (0.00) ... Failing

### WITHDRAWAL GRADING POLICY

#### Add/Drop Policy for 10 week quarter

- A student has 15 calendar days after the term start date to notify ATA administrators of any request to add/drop a course from their schedule.
- After 15 calendar days, the students schedule is locked and the student incurs charges based on the schedule of classes in which they are enrolled.
- If student does not attend a class at any time during the first 15 calendar days of the term, their enrollment is automatically cancelled out of that class on the add/drop day. They incur no charges for that class.
- If student attends a course in week 1, those hours will be charged, even if they never attend after that. If the student wishes to cancel a course during the first 15 calendar days of the term it is their responsibility to notify ATA student services.
- This notification can be made by emailing by signing into your student portal and designating which class you wish to drop/cancel.
- Student must drop 2nd 5 week course before sitting any class meeting. If student attends 1 class meeting of a 2nd 5 week course, student will be charged.
- If the student drops 2nd 5 week course during add/drop period, student will be canceled with no charge and financial aid eligibility is adjusted
- If student attends the 2nd 5 weeks course, even once, they are charged and paid federal student aid based off attendance in that class.
- Students who withdraw or are withdrawn from a class during weeks 3-7 of the quarter will receive a grade of "W" withdrawal on their permanent academic transcript.
- Students withdrawing or being withdrawn during weeks 8-10 will receive a grade of "WF" withdrawal failing on their permanent academic transcript.
- The "WF" will not be averaged in the student's GPA. In calculation of the quantitative measure every attempted credit hour will count toward the 150% maximum attempt level.

## 3 ACADEMIC POLICIES

### **Add/Drop Policy for 5 week term**

- The student has 6 calendar days after a mini term begins to notify ATA to add/drop a course or program entirely with no charges.
- After 6 calendar days, the student's schedule is locked and the student incurs tuition charges based on the number of hours on their schedule.
- This notification can be made by signing into your student portal and designating which class you wish to drop/cancel.

Students may also provide notification to Student Services personnel.

Students who miss 3 consecutive classes of class section will be administratively withdrawn. Mitigating circumstance not withstanding.

### **COURSE RE-TAKE POLICY**

Any student who opts to re-take a class to improve his/her grade point average or re-take a previously failed course will be charged the current credit hour rate for the re-take of the course.

### **SATISFACTORY ACADEMIC PROGRESS (SAP) POLICY**

All students of ATA must meet the following minimum standards of academic achievement and successful course completion while enrolled. Failure to meet the requirements of this Satisfactory Academic Progress Policy may result in punitive actions up to and including the possible loss of federal and/or state financial aid and suspension or termination from the College. The student's progress will be evaluated at the end of every quarter to determine Satisfactory Academic Progress (SAP).

#### **A. Qualitative Standards (Cumulative Grade Point Average)**

To qualify for graduation, a student must achieve a minimum cumulative GPA of 2.0.

Qualitative satisfactory progress is defined as maintaining a minimum acceptable grade point average on a 4.0 scale. Students must maintain the following minimum grade point average on a 4.0 scale in order to be considered making qualitative satisfactory academic progress:

- 0 to 17 credits attempted: 1.50 cumulative GPA. If the GPA at the end of the first quarter of attendance is below 1.50, the student is subject to being suspended or terminated.
- 17.1 to 26 credits attempted: 1.75 cumulative GPA. If the student had been on academic/financial aid warning and failed to make qualitative satisfactory progress, the student is subject to being suspended.
- 26.1 or more credits attempted: 2.0 cumulative GPA. If the student had been on academic/financial aid warning and failed to make qualitative satisfactory progress, the student is subject to being suspended.

A student will be considered as not making satisfactory academic progress if at any evaluation point the student's cumulative grade point average is less than the prescribed minimums listed above.

#### **B. Quantitative Standards (Completion Rate)**

Each quarter, students' academic progress will be measured by comparing the number of credit hours attempted with the number of credit hours earned (those attempted hours where an acceptable passing grade was received). Students must earn a minimum of 50% of the credit hours attempted during their first and second quarter of enrollment for all subsequent enrollment periods a student must have completed 2/3 (66.7% rule) of the cumulative credit hours attempted in order to maintain satisfactory academic progress and remain a student in good standing.

The following chart provides direction as to the required rates:

### 3 ACADEMIC POLICIES

#### Qualitative Requirement-Cumulative Grade Point Average (GPA)

Qualitative progress is measured at each evaluation point. ATA measures qualitative progress on the basis of a 4.0 scale. All courses for which a student receives a grade will be included when calculating the student's GPA, except that of a withdrawal (W) or incomplete (I) or a grade of (P) passing grade for an externship or bypass or transfer credit. If a student repeats a course, only the highest grade for that course will be included when calculating the student's GPA.

#### SAP Table:

Evaluation Period	Cumulative Quarter Credits Attempted (including transfer and bypass credit)	Minimum Percentage of Cumulative Credits Completed	Minimum CGPA
1	0 to 17	50%	1.5
2	17.1 to 26	50%	1.75
3	26.1 or more	67%	2.00

The following are considered when evaluating quantitative satisfactory academic progress:

- Withdrawals, withdraw/failures, incompletes, instructor drops, and failures are considered as hours attempted but not earned.
- Credit earned with a passing grade (P) in a course attempted on a Pass/Fail basis is considered as both attempted and earned; those failed are considered as attempted only.
- Credit earned through bypass testing is considered as both attempted and earned in quantitative measure, but is not calculated in cumulative GPA.
- Transfer credits are considered as both attempted and earned, but are not calculated in cumulative qualitative (CGPA) academic progress.
- Courses audited are not considered attempted or earned and are not calculated in GPA.
- Repeated courses are included in both hours attempted and earned in quantitative measure. The most recent grade received will be used in computing a student's cumulative grade point average.
- Upon the change of program, only those credits previously taken that will apply to the new program will be considered as attempted and earned for both qualitative and quantitative measures. However, students leaving one program on financial aid warning will enter the new program on financial aid warning.

#### C. Maximum Time Frame

Students are expected to complete their program of study within the normal time frame allotted. However, there is a maximum time frame in which students must complete their program of study. The maximum time frame is 150% of the credit hours required to complete their program. This maximum time frame is determined by using the total credit hours in a program of study multiplied by one and one-half (1.5) or 150%. For example, a student enrolled in the Medical Assistant Diploma program (57 credits) must complete the program once their total hours attempted equal 85.5 credit hours, calculated as follows:  $1.5 \times 57$  credit hours = 85.5 credit hours.

No student will be eligible to receive financial aid after 150% of the normal credits required for their program has been attempted. Once a SAP review determines that a student cannot mathematically finish their program of study within the maximum time frame, the student becomes ineligible for Title IV HEA and Florida state financial aid.

#### STUDENT STATUS DEFINITIONS

**Active** - The student is in good standing with the College with no punitive action status.

**Financial Aid Warning** - A previous "Active" status student who is receiving Title IV HEA and/ or Florida state financial aid and is not now achieving SAP standards will be placed on "Financial Aid Warning." The student may continue to attend classes and receive Title IV HEA and/or Florida state financial aid for one additional quarter of attendance while on Financial Aid Warning status. In addition, a "Financial Aid Warning" status is notice to the student that continued failure to achieve SAP standards will result in further punitive action by the College and the loss of the availabil-

### 3 ACADEMIC POLICIES

ity of Title IV HEA and/or Florida state financial aid.

**Academic Warning** - A previous "Active" status student who is receiving Title IV HEA and/ or Florida state financial aid and is not now achieving SAP standards will be placed on "Academic Warning" status. The student may continue to attend classes while on "Academic Warning" status for one additional quarter. In addition, an "Academic Warning" status is a notice to the student that continued failure to achieve SAP standards will result in further punitive action by the College.

**Financial Aid Probation by Appeal** - A previous "Suspension" status student who has successfully appealed for reentry due to extenuating or special circumstances as outlined in the appeal processes stated below may be placed on Financial Aid Probation by Appeal status. The Financial Aid Probation by Appeal student may be eligible for Title IV HEA and/or Florida state financial aid due to extenuating and/or special circumstances. The Financial Aid Probation by Appeal status allows the student to continue classes with a goal of achieving SAP standards by the end of the Financial Aid Probation quarter or by a specified period of time established in an Academic Recovery Plan.

**Academic Probation by Appeal** - A previous "Suspension" status student who has successfully appealed for reentry may be placed on Academic Probation by Appeal status. The Academic Probation by Appeal student may be eligible to receive Title IV HEA and/or Florida state financial aid. The Academic Probation by Appeal status allows the student to continue to attend classes with a goal of achieving SAP standards by the end of the Academic Probation quarter or by a specified period of time established in an Academic Recovery Plan.

**Suspension** - A previous "Warning" or "Probation" status student will be required to withdraw from the College for a minimum of one quarter due to failure to achieve SAP standards and/or the requirements established in an Academic Recovery Plan and will be placed on "Suspension" status. The student is not eligible for Title IV HEA and/or Florida state financial aid while suspended.

**Terminated** - The student has been permanently withdrawn from the College. The student is not eligible for Title IV HEA and/or Florida state financial aid.

#### FINANCIAL AID WARNING AND SUSPENSION

Academic progress is reviewed for all students at the end of each quarter. A previous "Active" student for whom it has been determined is currently not meeting the minimum SAP standards will be placed on "Financial Aid Warning" or "Academic Warning" status for one additional quarter of attendance. Financial Aid Warning status allows a student who currently utilizes Title IV HEA or Florida state financial aid to continue to attend class(es) for one additional quarter and utilize these funds while attempting to achieve SAP standards. A Financial Aid Warning status also places a student on notice that he/she will be suspended from the College and lose Title IV HEA and Florida state financial aid eligibility if all academic progress standards are not met by the end of the Financial Aid Warning quarter. Academic Warning status allows a student to continue to attend class(es) for one additional quarter while attempting to achieve SAP standards. A student on Academic Warning status does receive Title IV HEA or Florida state financial aid. An Academic Warning status also places a student on notice that he/she will be suspended from the College if all academic progress standards are not met by the end of the Academic Warning quarter. If at any evaluation point a Financial Aid Warning or Academic Warning status student fails to satisfy all SAP requirements he/she will be suspended from the College for a minimum of one academic quarter, and the student status will become "Suspension". Re-establishment of financial aid eligibility is only possible through the Satisfactory Academic Progress Appeal process. Upon any evaluation that affects a student's eligibility for Title IV HEA and/or State financial aid funds, a notification letter will be posted to the student's portal with the College. A student who believes he/she has encountered a special circumstance(s) that has impeded his/her satisfactory academic progress resulting in a punitive action by the College and/or loss of Title IV HEA or Florida state financial aid may utilize the appeal process as outlined in this policy.

#### FAILURE TO MEET SATISFACTORY ACADEMIC PROGRESS (SAP) STANDARDS

A previous "Active" student for whom it has been determined is currently not meeting the minimum SAP standards will be placed on "Financial Aid Warning" or "Academic Warning" status for one additional quarter of attendance. Financial Aid Warning status allows a student who currently utilizes Title IV HEA or Florida state financial aid to continue

### 3 ACADEMIC POLICIES

to attend class(es) for one additional quarter and utilize these funds while attempting to achieve SAP standards. A Financial Aid Warning status also places a student on notice that he/she will be suspended from the College and lose Title IV HEA and Florida state financial aid eligibility if all academic progress standards are not met by the end of the Financial Aid Warning quarter. Academic Warning status allows a student to continue to attend class(es) for one additional quarter while attempting to achieve SAP standards. A student on Academic Warning status does receive Title IV HEA or Florida state financial aid. An Academic Warning status also places a student on notice that he/she will be suspended from the College if all academic progress standards are not met by the end of the Academic Warning quarter. If at any evaluation point a Financial Aid Warning or Academic Warning status student fails to satisfy all SAP requirements he/she will be suspended from the College for a minimum of one academic quarter, and the student status will become "Suspension." Re-establishment of financial aid eligibility is only possible through the Satisfactory Academic Progress Appeal process. Upon any evaluation that affects a student's eligibility for Title IV HEA and/or State financial aid funds, a notification letter will be placed in the Student's Portal. A student who believes he/she has encountered a special circumstance(s) that has impeded his/her satisfactory academic progress resulting in a punitive action by the College and/or loss of Title IV HEA or Florida state financial aid may utilize the appeal process as outlined in this policy.

#### **Mitigating Circumstances**

There are times when circumstances interfere with a student's ability to perform academically. If a student believes that certain circumstances led to their suspension, the student must submit a letter of appeal to the Student Services Office. The student must provide evidence of extenuating, mitigating, or emergency circumstances (such as the death of a relative, an injury or illness of the student) along with the letter of appeal. If the appeal is denied, the student will remain on academic suspension for a minimum of one quarter.

#### **Satisfactory Academic Progress (SAP) Appeal Policy**

A student who believes he/she has encountered an extenuating and/or special circumstance(s) which has impeded their academic progress may submit a written appeal to the appropriate campus academic services office. The appeal process provides a student who has not met the College's satisfactory academic progress standards the opportunity to formally request to remain enrolled and/or reenroll at the College to rectify any SAP deficiencies and/or to re-establish eligibility for Title IV HEA and/or Florida state financial aid. The student wishing to appeal their SAP status and/or request re-entry to the College must submit a letter and any supporting documentation explaining the special circumstance(s) beyond the student's control resulting in their unsatisfactory academic performance and indicating what has changed in his or her situation that will allow the student to succeed and achieve SAP standards. The Academic Review Committee will review the appeal to determine if the student can reasonably be expected to achieve all measures of SAP and any other requirements for continued enrollment and/or reentry at the College. If the student is granted a successful appeal by the Academic Review Committee, the student's appeal will be forwarded to the Financial Aid Appeal Committee for its review and consideration. The Financial Aid Appeal Committee will determine if the student's financial aid is to be reinstated based on federal and state financial aid guidelines, the student's special and/or extenuating circumstance(s) as stated in the appeal, and any supporting documentation that may have been provided. Each appeal committee has the independent discretion to accept or decline the student's appeal. The approval of reentry by the Academic Review Committee does not automatically guarantee the student's approval for re-establishment of financial aid by the Financial Aid Appeal Committee. Students wishing to appeal both their SAP status and financial aid eligibility must submit information and documentation to satisfy both committees' requirements. While the appeal process serves multiple purposes, if it is determined that a student cannot mathematically achieve SAP within the policy limitations the appeal will be denied. The student has the burden of validating the reasons why he/she could not meet SAP requirements and justifying the reason(s) the committee(s) should grant the appeal. The student may submit an appeal for financial aid eligibility based on one or more of the following special and/or extenuating circumstances: Death of a relative of the student; Injury or illness of the student; Other special extenuating circumstance(s) warranting consideration. To appeal a SAP-related suspension or other punitive action the student must submit a clear and concise appeal letter with the following elements:

### 3 ACADEMIC POLICIES

1. Current date, student's full name as listed in College records, student College issued ID number and student signature;
2. Specific request for reinstatement of financial aid, if desired;
3. Statement of what special circumstance(s) the student encountered for all academic terms in which poor performance resulted;
4. Any supporting documentation to substantiate these special circumstances; examples of such documentation may include, but not necessarily limited to: a. Death notice of a relative; b. Student illness documentation provided by a doctor and/or other medical practitioner; c. Police Accident Reports; d. Military Activation Orders; e. Other documentation of special circumstances.
5. Explanation of what and/or how circumstances have changed that will facilitate the student's success in the future;

#### **ACADEMIC RECOVERY PLAN**

If the Financial Aid Appeal Committee approves the student's appeal, the student may be approved for the re-establishment of Title IV HEA and Florida state financial aid and will be placed on Financial Aid Probation by Appeal status while attempting to achieve SAP policy requirements and will be expected to meet the requirements of an Academic Recovery Plan. Upon the conclusion of the quarter of Financial Aid Probation by Appeal the student will be reviewed for SAP progress and meeting the requirements of their Academic Recovery Plan. If the student is granted reentry or continued enrollment by the Academic Appeal process, but eligibility for financial aid is not re-established through the Financial Aid Appeal process, the student will be ineligible to receive Title IV HEA and/or Florida state financial aid, and the student will be placed on Academic Probation by Appeal status. If a student is otherwise eligible to remain enrolled at the College, the Academic Probation by Appeal student may pay for college expenses by personal funds (out of pocket) or with other non-Title-IV HEA or non-state financial aid while attempting to achieve SAP policy requirements and will be expected to meet the requirements of an Academic Recovery Plan. Upon the conclusion of the quarter of Academic Probation by Appeal the student will be reviewed for SAP progress and meeting the requirements of their Academic Recovery Plan. A student on Financial Aid or Academic Probation by Appeal status will be required to adhere to an Academic Recovery Plan (ARP) as developed and prescribed by an appropriate academic school official. Any student on an Academic Recovery Plan will remain on the assigned student status as long the requirements of the Academic Recovery Plan are being met. Once minimum SAP standards are not met, the student will be suspended from the College for a minimum of one academic quarter, and the student status will become "Suspension." Re-entry to the College and/or reestablishment of financial aid is possible only through the Satisfactory Academic Progress Appeal process. A student who has been suspended from ATA due to failure to maintain satisfactory academic progress and re-enters school and fails to reach satisfactory academic progress at the conclusion of the next quarter will have their enrollment terminated from ATA. Termination is a final action, students terminated are not eligible for enrollment with ATA

#### **PROGRAM CHANGES & ATA GRADUATES EARNING ADDITIONAL CERTIFICATES, DIPLOMAS, OR DEGREES**

If a student changes their program, those credits previously taken and that will apply to the new program will be considered as credits attempted and earned and will be used in the calculation of SAP in the new program of study. However, a student leaving one program on financial aid warning will enter the new program on financial aid warning. A student graduating from one program and wishing to re-enter into a new program will have all applicable credits transfer into the new program. An evaluation of their transcript will be done using the same procedure as that for credits from another institution. Any equivalent courses will be transferred into the new program and the student's program length will be adjusted accordingly. Credits that transfer into the new program will be counted as hours attempted and earned and will be calculated into the student's completion rate and grade point average.

#### **RE-ENTERING STUDENTS**

Students re-entering ATA College will have their academic records reviewed and a determination made on qualification for re-entry. Any student approved to re-enter the College from a financial aid warning or suspension status will

## 3 ACADEMIC POLICIES

automatically be placed on financial aid warning until SAP as previously outlined has been met. The College reserves the right not to re-admit a student who has been dropped or withdrawn for academic, disciplinary, and/or adverse criminal background. Students who are on SAP warning or probation by appeal will be permitted to change their program of enrollment only once.

### **GRADUATION REQUIREMENTS**

To qualify for graduation, students must attain an overall cumulative grade point average (GPA) of 2.0 (C) or higher, and must have received a 2.0 (C) or higher in all required courses listed in the catalog under their program of study, and finish within maximum time frame. ATA College awards diplomas and associate degrees.

### **TERMINATION**

ATA reserves the right to terminate a student's enrollment if, during the program, the school determines that the student has failed to maintain satisfactory academic progress, comply with ATA rules and regulations as published in this Catalog, or has failed to meet his/her financial obligations. Any refund due to the student or other agencies will be calculated and refunded according to the Tuition Refund Policy.

### **Cancellation of Aid**

If a student's financial assistance is cancelled for failure to meet satisfactory progress, the student will be notified in writing informing him/her of the cancellation of financial aid and termination from ATA as well as the requirements for appeal and reinstatement.

### **STANDARDS OF ACADEMIC PROGRESS FOR VA STUDENTS**

Students receiving VA educational benefits must maintain a minimum cumulative grade point average (CGPA) of 2.0 each quarter (term, quarter, semester, evaluation period, etc.)

A VA student whose CGPA falls below 2.0 at the end of any quarter (term, quarter, semester, evaluation period, etc.) will be placed on academic probation for a maximum of two consecutive terms of enrollment. If the VA student's CGPA is still below 2.0 at the end of the second consecutive term of probation, the student's VA educational benefits will be terminated.

A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the school to be recertified after attaining a CGPA of 2.0.

Termination of enrollment is a final action which prevents the student from re-enrolling with ATA.

### **GRADE APPEAL**

If a student has the reason to believe that a grade he/she has received is incorrect, the student should first contact the instructor to resolve it. If satisfactory resolution is not reached, the student may consult Student Services or the Office of the Registrar and appeal his or her grade by obtaining a Petition for Appeal form. The completed petition for grade appeal form must be submitted by the student to the registrar's office within the first week of the subsequent quarter. The program director reviews the grade appeal with the instructor and makes a determination.

If student is not satisfied with the decision, he/she may wish to appeal in writing a letter addressing his/her concerns and submitting it to the Office of the Registrar within 4 weeks of the date of initial submission of the petition for grade change. The Registrar will forward the appeal request to the Academics Review Committee (ARC) for further review.

### **ACADEMICS REVIEW COMMITTEE (ARC)**

The Academics Review Committee (ARC) is comprised of program directors, faculty, and student services. The Student Services manager will request a student conference to discuss incidents of possible academic dishonesty, plagiarism or

## 3 ACADEMIC POLICIES

violation of the student code of conduct.

The Student Services manager reserves the right to administer disciplinary action when the student acknowledges violation of student code of conduct and when the violation of the student code of conduct is minor. In more serious violations of student code of conduct, incidents involving academic dishonesty or plagiarism the student's violation will be reviewed by the committee who will determine the appropriate course of action(s) to be taken. Students will be informed via the student email address of the Academics Review Committee's decision regarding disciplinary action.

### **ACADEMICS REVIEW COMMITTEE APPEAL PANEL**

The Appeal Panel is comprised of the Program Director, Director of Academic Affairs and Campus Director. Students have the right to appeal any ARC decision in writing to the Executive Committee. The panel will make a final determination of any disciplinary action.

### **EXTERNSHIP RETAKE POLICY**

ATA Programs require a student to complete an externship in order to graduate. The externship course is offered on a pass/fail basis.

Students in all degree and diploma programs are required to complete an externship component as outlined on the program description page. This externship is completed during the last quarter of enrollment. Students in externship may be permitted up to 5 additional weeks following the end of the externship period to complete the number of required hours in externship. Permission to extend the externship must be received from the Director of Education.

The externship is a capstone course which provides the opportunity for the student to gain hands-on experience in a real-life workplace. ATA has a number of affiliation agreements with our externship partners. On occasion an externship affiliate site will require ATA to remove a student from their site due to issues occurring at the site. Examples of such are: inability to perform assigned tasks, failure to show up at the pre-determined time without calling, unprofessional behavior and/or appearance at the site.

If a student is removed from/fails an externship site during their first attempt, the student will be responsible to find their own site. The student must notify Career Services of the site as the site must be approved by ATA personnel. Once a site is located Career Services personnel will initiate a signed externship agreement with the student and site personnel. The student may re-enroll for a second externship attempt to commence on the first day of the next quarter.

If a student is removed from/fails their second externship attempt the student will not be allowed to complete the program and their enrollment with ATA will be terminated. Once this action occurs the student is not allowed to bridge to another program.

Students who are removed/fail an externship will not be permitted to carry any successful hours that they completed forward to their next externship attempt.

In the event a student is removed from an externship location they have the right to appeal their removal by submitting a letter to the Director of Career Services within 5 days of removal. The letter should state the reasons the student feels they were wrongly dismissed from the site. The Director of Career Services will assemble the re-entry committee who will review the letter and make the determination if the appeal should be upheld or denied. Voluntary or involuntary removal results in the same process.

## 3 ACADEMIC POLICIES

If a student is removed from their second location the student will not be allowed to complete the program and their enrollment with ATA will be terminated. Once this action occurs the student is also not allowed to bridge to another program.

### WITHDRAWALS

A student who does not complete a course will be withdrawn from the course and receive a grade of “w” withdrawal or “wf” withdrawal failing.. A student should not withdraw from a quarter without prior notification. Students who withdraw from ATA are dropped from all classes and must re-enroll, and sign a new Student Enrollment Agreement and will be charged the current rate of tuition if they decide to return. Refunds are calculated for all students according to the policies in our catalog and Student Enrollment Agreement.

### DISMISSAL

A student may be dismissed from school for the following reasons: failure to maintain the established academic standards of the school (see academic policy), failure to be current in all financial obligations to ATA Career Education, excessive absences, violation of academic integrity policy, damage/destruction of school property and conduct disruptive to the classroom and/or school activities. Students who are dismissed/suspended due to failing to maintain established academic standards or for excessive absences are dismissed/suspended for at least 1 full academic quarter at which point they may request in writing to re-enter the school. Students convicted of a felony during the course of their schooling will be immediately terminated.

### APPEALS

A student who has been dismissed may appeal the decision if special or mitigating circumstances exist. Any student must explain the circumstances precipitating his/her dismissal and what plans the student has to eliminate those circumstances in the future. ATA defines extenuating circumstances to be serious illness, family emergency or death of a family member.

### TRANSCRIPTS

A permanent record of academic progress for each student is kept on file with the school. A student may request a copy of this record by submitting a written request to the Office of the Registrar. There is no charge for the first official transcript; however, all subsequent requests must include a \$10.00 fee. Transcripts will not be released for a student who is in debt to ATA Career Education.

### REQUIRED LEVELS OF PERFORMANCE FOR GRADUATION

The following requirements must be met by a student in order to qualify for graduation from ATA Career Education programs:

- 2.0 Cumulative Grade Point Average.
- Complete the program within 150% of the normal program credit hours.
- Maintain Satisfactory Academic Progress.
- Complete all designated requirements (tests, assignments, papers, etc.) of the program.
- Satisfy all financial obligations to the school.

### TYPE OF DOCUMENT AWARDED UPON GRADUATION

Upon successfully completing all requirements of the ATA Career Education program, the student will receive a diploma. Any additional third-party industry certifications are accomplished through third-party testing. The student,

### 3 ACADEMIC POLICIES

not ATA Career Education, is responsible for completion of third-party testing. ATA Career Education does not issue industry certifications. For certification preparation programs, the student should understand that ATA Career Education is offering preparation training only, and does not offer nor guarantee the certification itself.

#### **SCHOOL CALENDAR**

ATA Career Education previously operated on an open enrollment schedule and did not operate on regularly occurring terms like semesters or quarters. In November, 2011 ATA adjusted its calendar to operate on a 10 week quarter. Students enrolling from that point forward are on a quarter credit hour basis.

#### **CLASS HOURS**

Daytime classes may be scheduled between 8:00 a.m. and 5:30 p.m. Monday through Friday. Evening classes are scheduled from 5:30 p.m. to 10:30 p.m. Monday-Friday. Saturday classes are scheduled to meet between 8:30 AM and 2:00 PM. Administrative Offices are open from 8:00 a.m. to 10:30 p.m. Monday through Friday. Classes will begin promptly at their assigned start times and remain in session until the established end-of-class time.

#### **FERPA**

ATA provides an annual publication in the school catalog and on the ATA website regarding Family Education Rights and Privacy Act (FERPA). Students and parents of dependent students have the right to review a student's educational records, to request amendment to an educational records, to provide consent prior to disclosure of personally identifiable information and to file a complaint with the U.S. Department of Education regarding the failure of an institution to comply with FERPA. Students and parents are also advised that a hearing can be requested to challenge the contents of a student's record, and the student will be given the opportunity to place a statement regarding contested information in the record stating the nature of the disagreement.

ATA discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the school in an administrative, supervisory, academic or research, or support staff position; a person or company with whom the school has contracted as its agent to provide a service instead of using school employees or officials (such as an attorney, auditor, or collection agent). A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the School. Upon request, the College also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

The Family Educational Rights and Privacy Act, a Federal law, requires that ATA, with certain exceptions, obtain a student's written consent prior to the disclosure of personally identifiable information from their education records. However, ATA may disclose appropriately designated "directory information" without written consent, unless you have advised ATA to the contrary in accordance with ATA procedures. FERPA defines "directory information" as information that is generally not considered harmful or an invasion of privacy if released. ATA defines directory information in accordance with the provisions of the Act to include: student name, address, telephone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, most recent educational agency or institution attended, and/or participation in recognized activities. Upon enrollment, students sign a form regarding disclosure of directory information. Students wishing to amend their request for disclosure of directory information may do so in person with the Registrar's Office.

Additional information regarding FERPA rights can be found at: <http://www.atafl.edu/disclosures/Default.aspx>

#### **THE TELEPHONE CONSUMER PROTECTION ACT (TCPA)**

Student gives ATA and its affiliated third parties the authorization to call the cell phone number listed on an automated dialer system for accounting and collection purposes.

## 3 ACADEMIC POLICIES

### ADA

The Americans with Disabilities Act of 1990 was passed by Congress in order to ensure certain freedoms to residents of the United States who are living with an impairment of a major life function. The principles of the Americans with disabilities Act ensure that barriers to success and opportunity will no longer stand in the way of those with disabilities. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history of record of such impairment.

Impairments including developmental disabilities, also known as intellectual disabilities, need to be disclosed by the student to the Director of Education with documentation from the health care provider outlining recommended accommodations prior to receiving any accommodation.

The documentation of disability must be from a health care practitioner who provided the testing and must have been received in the last 5 years. The documentation should also indicate “recommended” accommodations.

### DRUG/ALCOHOL POLICY

ATA complies with the Drug Free Schools and Communities ACT of 1989, Public Law 101-226, which requires that as a condition of receiving funds or any form of federal financial assistance under any federal program, the institution of higher learning must certify that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drugs and alcohol by its students and employees.

ATA will provide for its students and employees a learning environment free of drugs and alcohol. All students and employees must comply with the policies, procedures and regulations imposed by ATA. ATA provides drug free awareness programs to its students and employees through assemblies, workshops, memos and drug free literature provided by the local drug abuse programs and treatment centers. ATA will post the names, address, and telephone numbers of local drug/alcohol counseling centers and rehabilitation programs. The school will support a student’s and/or employee’s decision to seek treatment for drug or alcohol abuse. The possession or distribution of illegal drugs and alcohol can result in fine or imprisonment under state or federal law, and the use of such substances can lead to

### 3 ACADEMIC POLICIES

significant health risks. Students may be asked by the Program Director, ATA, or the affiliating clinical/ externship facility to submit to individual, group, and/or random drug screens at any time. ATA reserves the right to determine the agency to conduct the drug screening. Refusal to comply with the requested screening within the timeframe directed can result in dismissal from ATA College. Students and employees are prohibited from the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance while on ATA's property or while engaging in ATA sponsored activities (field trips, holiday parties, picnics, etc.)

ATA may discipline and/or terminate any student or employee in the event that ATA discovers that the student or employee has consumed, manufactured, distributed, dispensed, stored, processed, or used illegal drugs or abused prescription or other legal substances off of ATA's premises if ATA believes, in its sole judgment that such action is in the best interest of ATA. ATA may also refer the student or employee for prosecution. No student or employee will be considered for readmission or rehire until they have provided satisfactory evidence to ATA that they have received and completed appropriate counseling and treatment.

Consumer information is available online at: <http://www.atafl.edu/disclosures>

#### **CAMPUS SECURITY ACT**

ATA complies with the Campus Security Act of 1990 (Public Law 101-542, Part Two of the Student Right-to-Know and Campus Security Act). This Act requires institutions of higher learning to prepare, publish and distribute all information regarding procedures and facilities for students and others to report criminal actions or other emergencies occurring on campus and the policies concerning the institution's response to such reports.

ATA will not tolerate mischievous and/or criminal actions by students or employees on school grounds or at school-related activities. All sexual offenses are included in ATA's definition of criminal actions. Students and/or employees participating in criminal acts on campus or at school related functions will be automatically dismissed from school or terminated from employment by ATA. ATA reserves the right to prosecute any student or employee found participating in criminal activity.

A student or employee having knowledge of a criminal activity occurring at ATA should immediately report the

### 3 ACADEMIC POLICIES

incident to an appropriate staff or faculty member. Staff and faculty members are required to contact the local authorities to report the criminal action. The Executive Director and/or Director of Academic Affairs of ATA must also be notified of the incident. ATA will cooperate with the local authorities in prosecuting any and all persons involved in criminal activities on ATA property or at ATA related functions. ATA will keep a record of all criminal occurrences beginning August 1991, and will provide a copy of this information to all students and employees. ATA will also provide this information to all prospective students and employees, upon request, beginning September 1, 1992 and each year thereafter.

ATA will provide guest speakers from local law enforcement agencies to enable students and employees to learn about security procedures and practices, and how the students and employees can be responsible for their own security and the security of others.

ATA's Campus Security Report is available on-line at: <http://www.atafl.edu/disclosures>

**CONDUCT POLICY  
& DRESS CODE**

**4**

## 4 CONDUCT POLICY & DRESS CODE

### CONDUCT POLICY

Students are expected to conduct themselves in a professional manner at all times. A student who conducts himself in a manner detrimental to ATA staff or other students will be terminated. The school's conduct policy prohibits, but is not limited to prohibiting:

- Foul language, verbal harassment, or other disrespectful behavior.
- Use, distribution or possession of non-prescription drugs or alcoholic beverages.
- Theft or other inappropriate use of school property and/or resources.
- Cheating of any kind.
- Engaging in any illegal activity on school grounds or while representing ATA.
- Exhibiting violent behavior toward staff, students or while on school grounds.
- Sexual harassment or displays of a sexual nature.
- Food brought into the classrooms.
- Drinks brought into the classrooms unless in a spill proof mug or a bottle with a sealable top.
- Cell phones are to be turned off during class and should not be visible. All emergency calls should be directed to call the office at the campus you are attending.

Violations of the school's conduct policy may be grounds for termination.

### DRESS CODE

All students are required to wear scrubs embroidered with the ATA Career Education logo. All clothes and appearances are to be clean and presentable at all times, and shall conform to the following:

- Students are not permitted to wear sunglasses, hats, or scarves, while in the building.
- Shoes must be clean, white close-toed sneakers.
- Fingernails should be kept short, color-free and neat in appearance. White tips, acrylic and overlay nails are not acceptable.
- Jewelry must be minimal and professional. Acceptable jewelry is a watch, wedding/engagement ring, and small earrings (no hoops or dangling earrings). Necklaces must tuck into the student's scrub top. Nose and any other facial piercings must be removed, or covered with a Band-Aid at all times.

For externship and lab days, the dress code is the same as above, but must include:

- Hair in a ponytail, if long enough, and must be kept up and away from the face.
- Watch with a second hand (for taking pulse).
- Stethoscope: Students are required to use their stethoscopes during labs and externships.
- Protective eyewear (glasses) during all invasive procedures.

**STUDENT SERVICES**

**5**

## 5 STUDENT SERVICES

Student Services supports the mission of ATA Career Education. Consistent with the institution's mission of providing quality instruction, hands-on training and effective career preparation, student services provides support and resources designed to promote successful graduates. The Student Services goal is to help students make the successful transition into student life, empower them to make decisions, and effectively move into the workplace. Students who request counseling relating to personal issues are referred to outside agencies.

### **RELEVANT COPING SKILLS**

Relevant coping skills are reinforced throughout the student experience at ATA. Students begin their training with skills courses and proceed through to Professional Development.

### **HOUSING, HEALTH, TRANSPORTATION & CHILD CARE**

ATA does not provide housing for students or assistance locating housing. ATA does not provide student healthcare or childcare for dependents of students.

### **STUDENT RECORDS**

Student records are permanently retained by ATA in locked, tamper and fire resistant cabinets when not in use. Electronic copies of student records are maintained on a campus server, backup copies are made daily and stored off-site.

### **ACADEMIC ADVISING AND TUTORING**

ATA provides academic advisement to students to ensure their success. Advisement is provided to students failing to meet academic standards at the mid-quarter point of each course. A formalized advisement plan takes place when a student is placed on academic probation for failure to make satisfactory academic progress. Special assistance and/or tutoring arrangements are provided to students who require additional assistance. At any time, a student may arrange an appointment with the Director of Academic Affairs or their instructor.

### **CAREER SERVICES**

Information on job requests from businesses and industries will be made available to students. ATA does not promise or guarantee placement/employment after graduation, but will assist in obtaining initial contact with employers. Placement statistics are available upon request from the Career Services office and are available at the following web address: <http://www.atafl.edu/disclosures/Default.aspx>

**FINANCIAL POLICIES**

**6**

## 6 FINANCIAL POLICIES

### TUITION AND PROGRAM EXPENSES

Each program at ATA has a designated tuition and expense schedule. Information regarding this is provided to the student prior to enrollment. The ATA Tuition and Fee Schedule can be found at:

<http://www.atafl.edu/disclosures/Default.aspx> tuition and fee schedule

Potential students are advised of program pricing and financial aid availability in a meeting with a financial aid advisor. This meeting provides an estimate of the anticipated aid available to the student should they choose to complete enrollment.

ATA reserves the right to modify its pricing structure as business needs dictate, and all such changes will be published in revised editions of this catalog or addenda to it.

### ATA FEES

General Fee (due quarterly) non-nursing students.....	\$100
General Fee (due quarterly) nursing students .....	\$200
Change of Program/Restart/Bridge Fee.....	\$50
Bypass Exam Fee .....	\$50
Bypass Credit Fee.....	\$150
Nursing Clinical Make up Fee.....	\$200
Academic Transcript Fee .....	\$10
Student ID Replacement Fee.....	\$10
CPR Training fee .....	\$50
Certificate/Diploma reprint fee.....	\$50

These fees are due as a cash payment and may not be incorporated in the title IV student aid packaging.

### FINANCIAL ASSISTANCE

ATA can assist the student in making application for financial aid. Financial aid advisors are available to meet with students individually to answer questions and guide them through the aid process. Professional and courteous service guarantees that students understand financial options and are ready to complete their career goals.

A prospective student and his/her parents are encouraged to visit ATA's Financial Aid Office for detailed information, forms, and assistance in completing application forms for the financial assistance programs available.

Students may seek additional funding sources to the direct loans offered through the school.

### FINANCIAL AID PROGRAMS

Financial Assistance is available to those who qualify. Financial aid programs include student loans and grants. Convenient payment plans are also available. Students should apply early for admission in order to ensure that their financial aid can be completed by registration day.

Students attending ATA may have access to federal and state financial aid programs. In order to apply, students must complete the Free Application For Federal Student Aid (FAFSA.) You can apply for funding through the Student Financial Aid Office.

Approved financial aid programs (available to those who qualify) include:

## 6 FINANCIAL POLICIES

### SCHOLARSHIPS

**Florida Bright Futures Scholarship** - The Florida Legislature created the Florida Bright Futures Scholarship Program to reward students for their academic achievements during high school by providing funding for them to pursue postsecondary educational and career goals in Florida. Questions about student eligibility for this program should be directed to the Bright Futures hotline, toll-free at 1-888-827-2004.

### **Scholarships for Children of Deceased or Disabled Veterans or Children of Servicemen Classified as**

**Prisoners of War or Missing in Action** - The State of Florida provides scholarships for dependent children of Florida veterans or service members who died as a result of service-connected injuries, diseases, or disabilities sustained while on active duty or have been verified by the Florida Department of Veterans' Affairs as having service-connected 100% total and permanent disabilities. For more information on this program contact the Florida Office of Student Financial Assistance toll-free at 1-888-827-2004.

**Florida Student Assistance Grant** - The State of Florida provides scholarship funds for students in ATA's LPN to RN Associate Degree Nursing program. For more information on this grant inquire with financial aid regarding qualifications.

### GRANTS

#### **Federal Pell Grants**

- This is a grant - no repayment required
- For undergraduates only

Pell Grants are awarded to help undergraduates pay for their education after high school. For many students, these grants provide a "foundation" of financial aid, to which aid from other Federal and non-Federal sources may be added. Unlike loans, grants do not have to be repaid.

Pell Grant awards for the academic year will depend on program funding. How much you are actually eligible for will depend on your Expected Family Contribution (EFC), the cost of education at the school, full time status, and the length of your enrollment during the academic year.

**Workforce Investment Opportunity Act (WIOA)** - The Workforce Investment Boards (WIBs) provide grants to those eligible students who have been displaced or who are unemployed. Other minimum requirements and funds availability also apply. Additional information and applications to determine eligibility are available through local WIBs.

### LOANS: UNSUBSIDIZED AND SUBSIDIZED

**Federal Direct Student Loans** - It is the goal of ATA Career Education to educate students regarding their rights and responsibilities so as to assure students will understand the seriousness of borrowing and be capable of repaying these loans. The Health Care and Education Reconciliation Act of 2010 (HR 4872) eliminates the Federal Family Education Loan Program (FFELP) that has been utilized since 1965 to provide federal loan funds to students. As a result, ATA Career Education now participates in the William D. Ford Direct Loan Program (DL.)

**Federal Plus Loans** - The Federal Parent Loan for Undergraduate Students (PLUS) program enables parents with good credit histories to borrow to pay the educational expenses of each child who is a dependent undergraduate student enrolled at least half-time. To be eligible to receive a Federal PLUS Loan, parents generally will be required to pass a credit check. Parents might also qualify for a loan if someone who is able to pass a credit check agrees to co-sign the loan. You or your parents must also meet other general eligibility requirements for federal student financial aid.

### LOAN REPAYMENT

If you accept a student loan to pay for your education, you are agreeing to repay your loans, including accrued interest and fees.

### VETERAN'S EDUCATIONAL BENEFITS

## 6 FINANCIAL POLICIES

Veterans or their families who think they may be eligible for benefits should contact their local Veteran Affairs Counselor or go to [www.gibill.va.gov](http://www.gibill.va.gov) to register and receive a certificate of eligibility for additional information.

### **GENERAL INFORMATION FOR FINANCIAL AID**

The regulations governing all financial assistance programs are subject to change. ATA's Financial Aid Office will have the latest information.

### **FINANCIAL AID WARNING, PROBATION OR SUSPENSION**

Financial aid warning, probation or suspension occurs when a student passes fewer than the minimum number of courses or falls below the grade point average minimum as defined in the section regarding Satisfactory Academic Progress. Students on warning are eligible to receive financial aid; however students who are suspended are ineligible for Title IV Financial Aid until they can re-establish satisfactory academic progress. Students who appeal their suspension and are permitted re-entry are re-admitted on financial aid probation by appeal following suspension and are thus ineligible for Title IV Financial Aid until they re-establish satisfactory academic progress.

### **FINANCIAL AID REINSTATEMENT**

Once placed on financial aid suspension, a student will be considered for additional financial aid at ATA only when one of the following conditions has been met:

1. Sufficient credits have been completed and/or the minimum cumulative grade point average requirements have been satisfied.
2. It is established through the financial aid appeals process that the student encountered extenuating circumstances that hindered academic performance (for example, a documented serious medical problem) during the quarter(s) in question. A student wishing to appeal the suspension must do so in writing with any appropriate documentation to the Financial Aid Office.
3. If the appeal is denied and the student believes his/her situation merits additional consideration, the student may then utilize the "Satisfactory Academic Progress Appeal Procedure" to seek resolution.

### **TERMS AND METHODS OF PAYMENT**

#### **Payment by Individual**

Payment of tuition is due no later than the first day of class. If payment in full is not received by this date, financial aid and/or an installment payment plan must be approved by student accounts and be in place by the first day of class, or the student will not be allowed to start class. Students who are placed on a payment plan will be required to pay a specified amount each month and will be required to pay the entire amount due, in equal monthly installments. Transcripts will not be issued until the student's financial obligations to the school have been met. The student's payment schedule and amounts will be determined after all financial aid packaging has been completed. Credit card, cash, or disbursements from a qualified lending program are accepted.

### **CANCELLATION AND REFUND POLICIES**

#### **Cancellation by School**

Any student who violates the school's rules and regulations as set forth in the school catalog, including attendance policies; or who fails to meet all financial obligations to the school may be terminated by the Director. Should the student be terminated, a refund will be made according to the Refund Policy.

#### **Cancellation by the Student**

Any student wishing to terminate their training should notify the school in writing. Such written notice is suggested but not required in order to obtain a refund. However, the student must clearly communicate their wish to terminate to the Director in some manner.

## 6 FINANCIAL POLICIES

### Refunds

If a student terminates or cancels for any reason, refunds will be made as follows.

1. Applicants who have not visited the school prior to enrollment will have the opportunity to withdraw without penalty within three (3) business days of completing the enrollment agreement. Registration and General Fees are not refundable.
2. All monies will be refunded if the school does not accept the applicant or if the student cancels within three (3) business days of signing the enrollment agreement and making initial payment.
3. Cancellations after the third (3rd) business day, but before the first class, will result in a refund of all tuition paid at that point. There is no refund of registration or general fees. Subsequent to this three-day withdrawal period, an applicant requesting withdrawal prior to the start of classes is entitled to a refund of all monies paid less a registration fee of 10% of the contract price or \$100, whichever is less.
4. Withdrawal after attendance has begun and up to and including 40% of completion of the quarter will result in a pro rata refund. This refund is computed by subtracting the registration/processing fee and the cost of any books/lab from the total paid. The remaining balance is then prorated based on the number of meetings scheduled to attend in relation to the total program hours, and the difference is refunded to the student.
5. Withdrawal after completing more than 40% of the quarter will result in no refund.
6. Termination Date. The termination date, for refund computation purposes, is the last date of actual attendance by the student unless earlier written notice is received.
7. Refunds for students receiving federal financial assistance will be made within 45 days of termination or notification of cancellation. All other refunds will be made within 30 days.

### INSTITUTIONAL REFUND POLICY

ATA shall refund tuition based on the percentage of the quarter remaining after the last day of attendance, up until the time the student has attended 40% of the quarter. This percentage will be calculated based on the number of calendar days remaining in the quarter divided by the total number of calendar days in the quarter. Scheduled breaks of 5 or more consecutive days will be excluded in determining the calendar days used in the calculation. After 40% of the quarter has passed, there will be no refund.

### WITHDRAWAL AND REFUND POLICY FOR STUDENTS RECEIVING TITLE IV FEDERAL STUDENT AID FUNDS

The refund policy for students receiving Title IV is same for those who are not receiving Title IV, except R2T4 must first be applied. R2T4 regulations follow.

Federal regulations regarding refunds of Title IV Federal Student Aid (FSA) refer specifically to funds that are required to be returned to the U.S. Department of Education or appropriate lenders of the Federal Family Educational Loan Programs (Federal Stafford Loans and Parent Loans), and in limited situations returned to the student/parent(s). These regulations do not dictate an institutional refund policy, which may differ from the Title IV refund policy. The calculation of Title IV funds earned by the student has no relationship to the student's incurred institutional charges.

Up through the 60% point in each payment period, a Pro-Rata schedule is used to determine the amount of FSA funds the student has earned at the time of withdrawal. After the 60% point in the payment period, a student has earned 100% of the Title IV funds he or she was scheduled to receive during the period. Federal regulations define attendance for purposes of this calculation as hours scheduled to be completed by the student.

## 6 FINANCIAL POLICIES

### **Returning Funds to Title IV programs when students are selected for verification**

If a student provides all documents required for verification after withdrawing but before the verification submission deadline and in time for the institution to meet the 45-day return deadlines, the institution performs the return calculation including all Title IV aid for which the student has established eligibility as a result of verification and for which the conditions of a late disbursement had been met prior to the student's loss of eligibility due to withdrawal.

If a student who has withdrawn does not provide the required documents in time for the school to complete the verification process and meet the 45-day return deadlines noted above, the institution includes in the return calculation only the Title IV aid that was not subject to the verification process (Federal Unsubsidized Stafford Loans and PLUS ).

### **Returning Title IV Aid for students who withdraw with a Title IV credit balance**

Title IV credit balances created during the period in which a student withdraws are not released to the student and are not returned to the Title IV programs prior to performing the federal return calculation. Any Title IV credit balance must be allocated first to repay any grant overpayment owed by the student as a result of the current withdrawal. After the return calculation has been completed, the credit balance will be distributed first to pay all authorized charges at ATA, and any remaining balance will be paid to the student/parent(s), unless the student authorizes ATA to reduce their Title IV loan debt. If the institution cannot locate the student to whom a Title IV credit balance must be paid, it must return the credit balance to the Title IV programs. Refunds of credit balances are completed within 14 days.

### **VETERANS REFUND POLICY/WORKFORCE PINELLAS/TAMPA/HERNANDO/PASCO**

The refund of the unused portion of tuition, fees, and other charges for veterans or eligible persons who fail to enter a course or withdraw or discontinue prior to completion will be made for all amounts paid which exceed the approximate pro-rata portion of the total charges that the length of the completed portion of the course bears to the total length of the course. The pro-ration will be determined based on the number of days or hours of instruction completed by the student to the total number of instructional days or hours in the course. The Regulation on withdrawal calculations can be found in the Handbook for Student Financial Aid, Volume 5, chapter 2, which refers to the HEA section 484B, 34CFR 669.22.

### **FSA Student Loan Ombudsman Office**

FSA Student Loan Ombudsman Group.

**PROGRAMS**

**7**

## 7 PROGRAMS OFFERED

### PROGRAMS

ATA offers programs leading to a Diploma and/or Degree. All programs offered by ATA are taught on campus; ATA currently does not offer any courses via distance education.

#### Diploma Level

This level generally requires completion of thirty-six (36) but less than ninety (90) quarter credits and is designed to be completed in three to six academic quarters. This level develops skills that may enhance employment possibilities at the entry level.

#### Degree Level

This level requires completion of at least ninety (90) quarter credits with appropriate general education courses designed to be completed in 6 or more quarters. All students entering ATA will enroll in the program of their choice. Students will benefit most from their selected program by uninterrupted progress toward completion of the full program; however, there may be some valid reason for a student to complete something less than the full program of study. Should the student later complete the full program, the regular academic credential will be awarded to the student.

\* As of the date of printing all ATA classes are offered in a residential format.

### ACADEMIC PROGRAMS

Limited Medical Radiography .....	40 weeks
Professional Coding .....	50 weeks
Patient Care Technician .....	40 weeks
Pre-Licensure Practical Nursing.....	60 weeks

## 7 PROGRAMS OFFERED

### Definition of Course Numbering System

Description of the course numbering system is as follows: The course prefix indicates an area of study for the course. The last 3 digits of the course number indicate the usual sequence in which the course will be scheduled. For example 100-110 courses are typically taken at the beginning of the program, courses 120-150 will be scheduled for the middle sequence of the program. An asterisk \* next to a course number indicates it qualifies as a general education course. A letter following the 3 digit course number indicates that the course is specific to a particular area of training, for example MED175 is the course number for the Medical Assisting Certification Review Course, however MED175P is the Phlebotomy Certification Review Course.

ANA .....	Anatomy
BUS .....	Business
COD .....	Coding
COM .....	Communication
DEN .....	Dental
ENG .....	English
EXT .....	Externship

MED .....	Medical/Allied Health
PHL .....	Phlebotomy
PSY .....	Psychology
PTH .....	Pathology
NPN .....	Nursing
PCT .....	Patient Care Technician

## 7 PROGRAMS OFFERED

### Associate of Occupational Science Degree MEDICAL PROFESSIONAL: MEDICAL ASSISTING

Objective: The core portion of the program is designed to train for entry-level medical assisting/administrative positions. Graduates of this program receive not only specialised courses relating to the medical field, but also a solid background in the basic skills necessary for most office positions. Graduates will be prepared for positions such as medical assistant or clinical assistant. During the final quarter of study, students participate in an externship which will provide them with an opportunity to work in the field under the supervision and evaluation of a cooperating medical facility and the school. Upon completion of the program, graduates will be eligible to sit for a certification exam as a medical assistant through the NCCT for the NCMA certification. Program completion is 7 quarters.

Note: All laboratory classes require a "c" or higher grade for successful completion. Only one absence is permitted for laboratory clinical classes. Students must show proof of immunization against HEB B and a clear TB Skin Test.

#### Medical Professional: Medical Assisting

### Associate of Occupational Science Degree MEDICAL PROFESSIONAL: MEDICAL CODING

This degree program provides students with the appropriate didactic theory and hands-on skills required and necessary for starting, maintaining, and growing in a chosen health information coding career. Students are prepared to function in a variety of medical facilities within the chosen fields of medical coding and billing. The objective for this program is to prepare students to analyze medical records and assign codes to medical conditions, diagnoses and procedures using a complex health care coding classification system. Graduates will be prepared to seek positions such as medical secretary, insurance office worker, medical claims processor, insurance office worker, medical claims processor or records clerk in physicians' offices, hospitals, clinics, medical billing companies and medical financial consulting companies. Program completion in 7 quarters.

The Limited Medical Radiography Diploma program meets the educational requirement to apply for licensure as a Basic X-Ray Machine Operator or Basic X-Ray Machine Operator - Podiatric Medicine in Florida. Pursuant to Chapter 468, Part IV, Florida Statutes, no person shall use radiation on a human being or otherwise practice radiologic technology unless he or she is certified or licensed by the State of Florida as a radiologic technologist, radiologist assistant, basic x-ray machine operator, physician, podiatrist, chiropractor, or naturopath.

Other eligibility requirements may apply; please verify your eligibility against the Florida Health Licensing and Regulatory Agency. This program may not meet the educational requirements for licensure as a Basic XRay Machine Operator in states other than Florida.

To graduate from this program students must complete all required courses in the curriculum listed on this page. A cumulative grade point average of 2.0 or higher is required, they must achieve all required skill competencies and satisfactorily complete all required clinical learning experience.

## 7 PROGRAMS OFFERED

### Associate of Occupational Science Degree (AOS) LIMITED MEDICAL RADIOGRAPHY WITH MEDICAL ASSISTING

Objective: This degree program is designed to provide quality career education and training in Limited Medical Radiography while also preparing the graduate to provide clinical support in the medical facility as a medical assistant. Upon completion of the program graduates will be prepared to sit for licensure as a Limited Medical Radiographer through the Board of Medical Imaging and Radiation Therapy as well as sit for certification through the NCCT for the NCMA National Certified Medical Assistant credential. The Licensed Limited Medical Radiographer plays an important role in the medical team by providing quality radiographs for a physician or radiologist. LMR specific responsibilities include adjusting radiographic equipment for specific examinations and placing the patient in the correct position and processing the radiograph.

All applicants will be required to submit a clear criminal background check prior to entering classes. Students are required to submit a clear TB skin test, hepatitis B, varicella (chicken pox), tdap (tetanus), and MMR immunization prior to starting clinical.

### Diploma In PHLEBOTOMY TECHNICIAN

Objective: This program is designed to prepare students for entry-level employment as a phlebotomist. The objective of this program is to prepare the graduate to provide high- quality, direct patient care while performing venipuncture and phlebotomy techniques.

The phlebotomist is a vital member of the clinical laboratory team whose main function is to obtain patients' blood specimens by venipuncture and micro-collection and transportation of other clinical specimens. Phlebotomists are employed throughout the health care system in hospitals, neighborhood health centers, medical group practices, HMOs, public health facilities, and veterans' hospitals.

Program completion time is 3 quarters (30 weeks).

To be eligible to enter this program, the student must be able to provide:

- a. TB skin test – within the last 12 months
- b. MMR – or proof of two (2) Vaccines, or positive titer
- c. Vanicella – history of disease, or two (2) Vaccines, or proof of positive titer

## 7 PROGRAMS OFFERED

### Associates Degree Nursing LPN to REGISTERED NURSE BRIDGE

This degree program will provide an avenue of instruction for the Licensed Practical Nurse who wishes to obtain an Associate Degree in Nursing. The course will build upon previous knowledge gained from an accredited Licensed Practical Nursing (LPN) program. The LPN entering the program will have basic competencies which this program will build upon. The program includes theory on role transition in the current health care system, related professional ethical and legal issues, understanding and application of critical thinking skills, the application of the nursing process in the adult clinical setting, basic intravenous therapy, and the methods of techniques of effective interdisciplinary communication and therapeutic patient communication. The program provides the foundational understanding of the role of the Registered Nurse as the provider of care, member of the discipline and manager of care.

At the conclusion of the program the graduate will be able to apply for licensure and take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). This program prepares graduates for employment in numerous health care settings. Registered Nurses hold positions in hospitals, nursing care facilities, physician offices, home health and in federal state and local government service organizations. Program completion is 70 weeks, program delivery is residential.

The Practical Nursing program at ATA Career Education is approved by the Florida Board of Nursing and licensed by the Florida Commission for Independent Education.

## 7 PROGRAMS OFFERED

### Diploma In MEDICAL ASSISTANT

Objective: This diploma program is designed to train individuals for entry-level medical office positions.

A medical assistant is a medical support professional that performs a variety of tasks to assist physicians in providing patient care, while ensuring that clinics and hospitals run smoothly and efficiently. While medical assistants working in a smaller practice may be required to perform some administrative tasks, those working in larger medical facilities focus mainly on providing support services directly related to patient care. While administrative medical assistants work mainly at the front desk and reception area of a clinic or doctor's office, clinical medical assistants are more often found at the physician's side working in close contact with patients. Graduates of this program receive coursework relating to offering assistance to the physician in direct patient care. Graduates will be prepared to seek positions such as clinical/medical assistant.

\* Students are required to show proof of immunization against Hepatitis B. In addition, proof of a negative TB Skin test must be submitted.

## 8 COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

### COURSE DESCRIPTIONS

#### **ANA101 Anatomy & Physiology**

4 Credit Hours

40 Lecture Hours

This course covers the study of the human body from the single cell to the coordinated whole, with emphasis on the interaction of all body systems in the maintenance of a stable internal state. The course includes the discussion of pathological conditions and diseases through the course. Prerequisite: None

#### **ANA105 Basic Orafacial Anatomy**

4 Credit Hours

40 Lecture Hours

This course provides a basic introduction to the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology and embryology. Upon completion, students should be able to demonstrate knowledge of normal structures and development and how they relate to the practice of dental assisting. Prerequisite: None

#### **BUS110 Keyboarding**

2 Credit Hours

40 Lab Hours

This course covers the development of basic keyboarding skills to improve speed and accuracy. Prerequisite: None

#### **BUS113 Records Management**

4 Credit Hours

40 Lecture Hours

This course is designed to introduce the student to a variety of records and record keeping systems and the principles underlying effective management of records. It also combines technical aspects of records procedures with the systems typically used in business today. Instruction in HIV/AIDS training is included in this course. Prerequisite: None

#### **COD128 Medical Insurance & Billing**

4 Credit Hours

30 Lecture Hours

20 Lab Hours

This course has been designed to introduce the student to the fundamentals of Insurance Billing and Coding. The basics of health insurance are discussed, including the claim form, coding classifications, collection strategies and various health care payers. Prerequisites: None

#### **COD130 Cert. Professional Biller Review**

4 Credit Hours

40 Lecture Hours

This course is designed to prepare the student for the Certified Professional Biller (CPB™) credential. It will prepare medical billers with skills to maintain all aspects of the revenue cycle.

## 8 COURSE DESCRIPTIONS

### **COD140 Basic ICD Coding**

4 Credit Hours  
30 Lecture Hours  
20 Lab Hours

This course develops skills in the use of ICD: International Classification of Diseases coding principles. The text will assist the student to reference course workbook, and associated manuals, while matching procedures, evaluations, and assessment to numeric codes. Additionally, students will be introduced to 'E' and 'V' codes, and their appropriate use. Also, coding laws and ethics will be discussed. Instructional Goals: The primary goal of this course is to expand the student's coding knowledge, specifically in ICD-9-CM coding challenges. Prerequisites: ANA 101

### **COD141 Advanced ICD Coding**

4 Credit Hours  
30 Lecture Hours  
20 Lab Hours

This course is designed to advance the student to a more heightened awareness of ICD-9 medical coding and to provide an advanced approach to diagnostic coding. This course is a continuation of prior exposure to coding and how the classification system is maintained. Instructional Goals: The primary goal of this course is to expand the student's coding knowledge, specifically in troubleshooting coding errors. Prerequisites: COD140

### **COD145 Medical Record Auditing**

4 Credit Hours  
40 Lecture Hours

This course is designed to introduce the student to the structure of the inpatient & outpatient medical record and the fundamentals of E/M auditing used to determine the correct code for the level of service provided. Documentation, coding and E/M guidelines, required by third party payers, will be reviewed. The student will receive training on how to abstract necessary information from the medical record and the use of appropriate resources (audit tools) to perform E/M chart audits. Students will analyze medical case studies and perform E/M chart audits using an audit form. Students will be exposed on how to analyze and report results of the audit. Prerequisites: COD155

### **COD153 Introduction to Procedural Coding**

2 Credit Hours  
20 Lecture Hours

This course develops skills in the use of CPT: Current Procedural Coding and HCPCS: Healthcare Common Procedure Coding System. The text will assist the student to learn proper use of the CPT and HCPCS coding manuals, including the organization of the manuals, common conventions and Iconography, Guidelines and the various sections found within the manual. Also, the use of coding modifiers will be discussed. Instructional Goals: The primary goal of this course is to introduce the procedural coding systems that the student's will be using in addition to the knowledge they have already obtained from ICD-10-CM coding.

### **COD155 AAPC Professional Medical Coding Curricular**

10 Credit Hours  
100 Lecture Hours

This course is primarily centered on the use of the CPT: Current Procedural Terminology coding system. Principles of ICD- 9-CM are covered briefly. The HCPCS (Healthcare Common Procedural Coding System) is explained and practice examples are given. The texts used cover all sections of CPT and the coding guidelines applicable to each section are discussed. End of chapter questions are assigned and reviewed. In addition, Medicare rules and regulations governing CPT coding procedures will be discussed. Prerequisites: COD141, COD128, MED135

## 8 COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

### **COD175 CPC Certification Exam Review**

4 Credit Hours

40 Lecture Hours

This course is designed to help prepare the student to perform well on the Certified Professional Coder (CPC) Certification Examination. The principal guidelines for this course are based on the American Academy of Professional Coders (AAPC) Certification Examination Content Outline. There are five major areas of comprehensive review: Medical Terminology & Anatomy, ICD-9-CM Coding Guidelines/Application, CPT Coding Guidelines/Application, HCPCS Coding Guidelines/Application & Reimbursement Guidelines/Application. Prerequisite: COD155

### **COM151 Interpersonal Communication**

4 Credit Hours

40 Lecture Hours

This course examines perspectives and recent research on verbal and non-verbal elements affecting communication between individuals in a variety of contexts. Prerequisite: None

### **DEN101 Introduction to Dental Assisting**

4 Credit Hours

40 Lecture Hours

Preview of dental practice, including specialties, history, professional and legal responsibilities and the role of the dental assistant. Dental and medical terminology; dental forms, records and charts, patient communication, telephone communications and office personnel relations. Prerequisite: None

### **DEN110 Dental Radiology**

2 Credit Hours

20 Lecture Hours

This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions. Prerequisite: None

### **DEN110L Dental Radiography Lab**

1 Credit Hour

20 Lab Hours

This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions. Prerequisite: None

### **DEN115 Dental Materials**

2 Credit Hours

20 Lecture Hours

This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials. Prerequisite: None

## 8 COURSE DESCRIPTIONS

### **DEN115L Dental Materials Lab**

1 Credit Hour  
20 Lab Hours

This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials. Prerequisite: None

### **DEN120 Specialty Principles & Techniques**

4 Credit Hours  
40 Lecture Hours

This course is a study of endodontics, periodontics, pediatric dentistry, prosthetics and other specialty dental practices and the dental assistant's role in a specialty practice. Prerequisite: None

### **DEN125 Practice Management**

4 Credit Hours  
40 Lecture Hours

This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management. Prerequisite: None

### **DEN140 Expanded Functions Dental Assisting**

4 Credit Hours  
40 Lecture Hours

This course instructs students in the art of restorative dentistry. Prerequisite: None

### **DEN140L Expanded Functions Dental Assisting Lab**

2 Credit Hours  
40 Lab Hours

This course instructs students in the art of restorative dentistry. Prerequisite: None

### **DEN145 Clinical Practice**

10 Credit Hours  
300 Clinical Hours

This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills. Prerequisite: Successful completion of all DEN coursework. Must be taken in the last quarter of the program.

### **ECG100 Basic Arrhythmia/ECG**

3 Credit Hours  
20 Lecture Hours  
20 Lab Hours

This course is designed to introduce the student to basic arrhythmias and function of the electrical conduction of the heart, in order to aid in proper administration of ECGs.

## 8 COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

### **ENG101 English I**

4 Credit Hours

40 Lecture Hours

The course covers the development of composition skills through purposeful reading, logical thinking, and the application of principles of rhetoric. Includes practice in the selection, restriction, organization and development of topics. It also reinforces the student's facility with sentence structure, diction and mechanics. Prerequisite: None

### **EXT100 Externship**

4 Credit Hours

120 Lab Hours

Externship provides the student an opportunity to visit and work in a medical office environment. The student will be exposed to day to day operations of the medical office that may include management functions, personnel administration, record keeping and medical office equipment. The student will be evaluated by the work site as they apply skills learned in the classroom in a practical environment. Prerequisite: Final Quarter Medical Office Professional Program

### **EXT200 Externship**

6 Credit Hours

180 Lab Hours

Externship provides the student an opportunity to visit and work in a medical office environment. The student will be exposed to day to day operations of the medical office that may include management functions, personnel administration, record keeping and medical office equipment. The student will be evaluated by the work site as they apply skills learned in the classroom in a practical environment. Prerequisite: Final Quarter Medical Professional Degree Program

### **LAS120 Success Skills**

4 Credit Hours

40 Lecture Hours

This course covers the development of self-reliance through understanding and utilizing the concepts of self-esteem, goalsetting, and accountability. Topics include study skills, test taking, note taking, time management, goal setting, listening, communication and customer service skills. Prerequisite: None

### **LAS120A Success Skills**

4 Credit Hours

30 Lecture Hours

20 Lab Hours

The development of self-reliance through understanding and utilizing the concepts of self-esteem, self-efficacy, goal setting, and accountability. Includes development of study skills, including library utilization, test taking, note taking, time management and critic thinking. This course also teaches introductory Microsoft Word 2013 and Microsoft Office Excel 2013 skills and how to apply them in a medical office setting. As a participant, you will become more prepared for your career as a Medical Professional in learning how to successfully support the front or back office of a clinic or hospital. This course covers the development of basic keyboarding skills to improve speed and accuracy. Prerequisite: None

### **LAS130 Professional Development**

2 Credit Hours

20 Lecture Hours

This course is designed to assist the student in developing skills necessary to gain employment. It also covers a wide range of job-seeking skills, including the development of an effective resume. Interviewing skills, referral letters, cover letters and other professional areas will be discussed. Prerequisite: None

## 8 COURSE DESCRIPTIONS

### **LAS130A Professional Development**

4 Credit Hours

40 Lecture Hours

This course is designed to assist the student in developing skills necessary to gain employment. It also covers a wide range of job-seeking skills, including the development of an effective résumé. Interviewing skills, referral letters, cover letters and other professional areas will be discussed. In addition, it covers professionalism in the workplace and the importance of the externship. Prerequisite: None

### **LMR100 Introduction to Radiography**

4 Credit Hours

40 Lecture Hours

This introductory course provides the student with general information about the profession of the Limited Medical Radiographer and introduces basic radiographic imaging principles and radiation protection. Special emphasis is also placed on medical ethics and professional conduct as well as patient care techniques. Prerequisite: None

### **LMR102 Radiographic Anatomy**

4 Credit Hours

40 Lecture Hours

This course for Limited Radiography students builds upon the basic understanding of the human anatomy and provides the student with in-depth identification of specific bone landmarks and bone markings that are to be identifiable on the x-ray film by the student. Prerequisite: LMR100

### **LMR110 Principles of Radiation**

4 Credit Hours

40 Lecture Hours

This course gives the student an understanding of the importance of radiation protection and radiation's effects on the human body. The student will also be familiarized with the regulatory agencies and the agency's guidelines as they govern and pertain to radiation. Prerequisite: LMR100

### **LMR120 Radiographic Imaging**

4 Credit Hours

40 Lecture Hours

This course presents additional concepts of x-ray physics and their relationship to the quality of the resultant radiograph. The properties of density, contrast, detail and distortion are analyzed extensively with emphasis on factors that control and influence them. This includes such topics as screen/film combinations, grid usage, effects of collimation, processing, etc. The role these factors play in radiation exposure and protection is also emphasized. Prerequisites: LMR110

### **LMR145 State Exam LXMO Review**

4 Credit Hours

40 Lecture Hours

This course for limited radiography students is designed to prepare the students to take the ARRT Limited Scope (LXMO) Radiography exam. This course includes review over patient care, radiographic procedures, equipment operation, image production and evaluation, radiation protection, anatomy and test taking skills. Prerequisites: LMR120, LMR102, LMR110, LMR200, MED100

## 8 COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

### **LMR 200L Radiographic Positioning 1 Lab**

2 Credit Hours  
40 Lab Hours

This course for Limited Radiography students offers laboratory experience to develop competency in performing x-ray examinations of the upper and lower extremities, shoulder girdle, pelvic girdle, chest, and abdomen. Attention is also directed toward the organization of the radiology department examination priorities, patient preparation, processing and archiving of x-ray images, etc. A combination of lecture, demonstration, and laboratory simulation are utilized to prepare students to perform these x-ray examinations. Prerequisites: LMR100

### **LMR300L Radiographic Positioning 2 Lab**

2 Credit Hours  
40 Lab Hours

This course for Limited Radiography students offers additional laboratory experience to develop competency in performing x-ray examinations of the thorax, spine, skull, sinuses, and the facial bones. Attention is also directed toward the organization of the radiology department - examination priorities, patient preparation, processing and archiving of x-ray images, etc. A combination of lecture, demonstration, and laboratory simulation are utilized to prepare students to perform these x-ray examinations. Prerequisites: LMR200L

### **LMR400 Advanced Limited Radiography Clinical**

6 Credit Hours  
180 Clinical Hours

This competency based course for Limited Radiography students covers the radiographic evaluation in a clinical setting, of the chest, extremities, shoulder girdle, pelvic girdle, spine, skull, and thorax, under the direct supervision of a state certified radiation operator. The student will be assigned to a clinical site to complete a total of 180 hours of clinical experience. Prerequisites: LMR120, LMR102, LMR110, LMR200, MED100, MED101

### **MED100 Medical Terminology**

4 Credit Hours  
40 Lecture Hours

This course provides the student with an understanding of the medial language in the healthcare fields while incorporating body structures and function in health and disease. The student will have an effective understanding of the major body systems, including the musculoskeletal, cardiovascular, respiratory, digestive and Integumentary system. Prerequisite: None

### **MED101 Health and Safety Techniques**

4 Credit Hours  
30 Lecture Hours  
20 Lab Hours

In this course students become CPR certified health care provider American Heart Association. Basic patient care skills, OSHA standards, medical asepsis and standard precautions are discussed. Competency in vital signs, first aid procedures, and patient transport/transfer complete the course. Prerequisites: ANA101

## 8 COURSE DESCRIPTIONS

### **MED110 Medical Math**

4 Credit Hours

40 Lecture Hours

This course includes instruction in essentials of mathematics for a health care provider. Drug dosages, intake and output, weights and measures, temperatures, IV drip rates and conversions are a focus, and illustrations of syringes, prescriptions, medication labels, IV bags, and I and O charts allow the students to practice real-life health care skills requiring mathematics and algebraic skills. Skills necessary to problem solve and apply appropriate mathematical concepts to daily life are developed: Prerequisite: None

### **MED115 Pharmacology**

4 Credit Hours

40 Lecture Hours

This course provides the student with the knowledge and skills required to prepare and administer oral and parenteral drugs. The student is introduced to principles of pharmacology, including major drug classifications, actions, side effects, immunology and implications for care. Prerequisite: None

### **MED120 Medical Law & Ethics**

4 Credit Hours

40 Lecture Hours

An overview of the role of the allied health professional in the legal and ethical concerns faced in the medical office; confidentiality of medical records and physicians' licensure requirements are covered. Prerequisite: None

### **MED126 Computers in Healthcare**

4 Credit Hours

30 Lecture Hours

20 Lab Hours

This course is designed for students in medical assisting, nursing and allied health programs, this course trains introductory Microsoft Word 2007 skills and Excel 2007 skills. As a participant, you will become more prepared for your career as a Medical Professional, in learning how to successfully support the front or back office of a clinic or hospital. Prerequisites: None

### **MED135 Medical Administrative Procedures**

4 Credit Hours

30 Lecture Hours

20 Lab Hours

This course is designed to develop competencies in front office procedures, including scheduling and time management, telephone technique, procedure codes. This course also familiarizes students with business procedures performed in a medical facility. Students are introduced to various electronic claims, professional fees, credit arrangements, submission, collection and data entry. Emphasis is placed on the practical application of collection procedures, patient billing and data entry and becoming proficient in the use of a practice management software program. Prerequisite: MED100

## 8 COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

### **MED150 Clinical Procedures I**

3 Credit Hours  
10 Lecture Hours  
40 Lab Hours

This course is designed to introduce the student to the medical assistant program and to his/her role as a medical assistant. The student will be introduced to the components of the medical record, how to identify the different types of documents within the medical record and how to prepare charts. The important concepts relating to the measurement of vital signs will also be introduced and the student will have the opportunity to learn several methods of taking temperature, pulse, blood pressure, respiration and ECGs. Prerequisite: ANA101, MED100

### **MED155 Clinical Procedures II**

3 Credit Hours  
10 Lecture Hours  
40 Lab Hours

This course is designed to provide the student with an opportunity to learn the principles and methods used to promote tissue healing and minor surgery. To assist the physician and patient during a gynecological examination and prenatal care. The student will also be provided with an opportunity to learn how to assist the physician during a flexible sigmoidoscopic examination. The medical assistant will learn skills to prepare and administer oral and parenteral drugs. CPR skills and basic first aid emergencies. Additionally, the student will be provided with an opportunity to learn how to provide care and treatment to children and infants. Prerequisite: MED150

### **MED160 Laboratory Procedures I**

3 Credit Hours  
10 Lecture Hours  
40 Lab Hours

This course is designed to develop student skills in a simulated laboratory and will provide the student with an opportunity to learn about laboratory testing as a diagnostic tool as well as the steps that are taken when specimens are tested at an outside laboratory. Specifically, the student will be provided with an opportunity to learn about urinalysis, including the physical, chemical and microscopic analysis of urine. The student will also be provided with the opportunity to learn the proper procedures for collection of various urine specimens. Instruction in HIV/AIDS training is included. Prerequisite: ANA101, MED100

### **MED165 Laboratory Procedures II**

3 Credit Hours  
10 Lecture Hours  
40 Lab Hours

This course is designed to assist the student in developing skills in a simulated laboratory setting and will provide the student with an opportunity to learn and develop skills in preparing for and performing venipuncture, as well as learning about the various components of the blood. The student will also be provided with an opportunity to learn the purpose and functions of various blood chemistry tests, including specimen requirements, normal values and those conditions resulting in abnormal values. Blood Born Pathogens Certification. Prerequisite: MED160

### **MED175 Medical Assistant Certification Review**

4 Credit Hours  
40 Lecture Hours

This course is designed to help prepare the student to perform well on the Medical Assistant Certifying Examination (CMA) test. The principal guidelines for this course are based on the American Association of Medical Assistants (AAMA) Certification Examination Content Outline. There are four major areas of comprehensive review: General information, administrative procedures, clinical procedures, & a practice exam. Prerequisite: MED155, MED165

## 8 COURSE DESCRIPTIONS

### **MED175P Phlebotomist Certification Review**

4 Credit Hours

40 Lecture Hours

This course is designed to help prepare the student to perform well on the Phlebotomy Certification Exam. The principal guidelines for this course are based on the American Association of Medical Assistants (AAMA) and the American Medical Technologist (AMT) content outline. Prerequisite: PHL101, PHL102, PHL 103

### **NUT100 Nutrition**

2 Credit Hours

20 Lecture Hours

This course provides the student with an introduction to the principles of nutritional needs and its relationship in maintaining health during infancy, childhood, adolescence, young, middle, and late adulthood. The chemical substances (nutrients: carbohydrates, fats, proteins, vitamins, minerals & water) that are necessary for life are examined along with variations in food patterns based on individual cultures, religions, and philosophies. Included will be U.S. Government Guidelines for Americans. Prerequisites: ANA101N

### **PHL101 Phlebotomy Lab I**

3 Credit Hours

10 Lecture Hours

40 Lab Hours

This course was designed to provide, through lecture and lab instruction, the theoretical basis for phlebotomy and venipuncture techniques. Didactic lectures cover the history of the phlebotomist's role, as well as roles of various clinical laboratory personnel. Lab instruction provides hands-on training in interpersonal communication, safety and infection control, as well as an introduction into venipuncture technique. Prerequisite: None

### **PHL102 Phlebotomy Lab II**

4 Credit Hours

20 Lecture Hours

40 Lab Hours

This course was designed to provide, through lecture and lab instruction, training in venipuncture. Lab instruction provides hands-on training in venipuncture technique with procedures verified through a skills check-off system. Prerequisites: PHL 101

### **PHL103 Phlebotomy Lab III**

4 Credit Hours

30 Lecture Hours

20 Lab Hours

This course was designed to provide, through lecture and lab instruction, training in venipuncture and capillary puncture technique, as well as the collection of special blood tests. Prerequisites: PHL 102

### **PHL104 Phlebotomy Clinical**

4 Credit Hours

120 Clinical Hours

Clinical observation experience provides the student an opportunity to visit and work in a medical office environment. The student will be exposed to day-to-day operations of the medical office as it relates to phlebotomy. The student

## 8 COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

will be evaluated by the work site as they apply skills learned in the classroom in a practical environment. This class will provide an opportunity for the student to observe a phlebotomist in an actual work setting. Prerequisites: Class must be taken in the last quarter of the phlebotomy program.

### **PHL116 Phlebotomy Technician Lab I**

4 Credit Hours  
30 lecture hours  
20 lab hours

This course provides a history of the phlebotomist's role in healthcare as well as quality assurance, legal issues and infection control surrounding phlebotomy. The theory content of capillary, venipuncture, and the correct order of blood draw are emphasized. Hands-on experience in a laboratory setting allows the student the opportunity to perform capillary and venipuncture techniques. The course also covers collection of non-blood specimens and considerations surrounding specimen collection.

### **PHL117 Phlebotomy Techniques II**

4 Credit Hours  
30 lecture hours  
20 lab hours

This course provides a review of concepts learned in Phlebotomy Techniques I (PHL 116). It also introduces procedures as they relate to the pediatric and geriatric populations. Arterial blood gases will be discussed as well as specialty tests. The student will gain further experience in venipuncture techniques as well as lab requisition. Different roles available surrounding phlebotomy will be discussed.

### **PSY101 Introduction to Psychology**

4 Credit Hours  
40 Lecture Hours

This course is designed to show students how psychology helps them understand themselves and the world, and uses psychological principles to illuminate the variety of opportunities they have in their lives and their careers. Prerequisite: None

### **PTH100 Pathology**

4 Credit Hours  
40 Lecture Hours

This course will provide the student with the basic concepts underlying various pathological processes. The student will study the pathogenesis of diseases, learn their mechanism and understand how they develop. The student will also learn the etiology of pathologic changes and understand the causes of many diseases. Prerequisite: ANA 101

### **SOC201 Introduction to Sociology\***

4 Credit Hours  
40 Contact Hours: 40 Lecture

This course provides a broad overview of sociology and how it applies to everyday life. Major theoretical perspectives and concepts are presented, including sociological imagination, culture, deviance, inequality, social change, and social structure. Students also explore the influence of social class and social institutions, such as churches, education, healthcare, government, economy, and environment. The family as a social structure is also examined. Course Length: 10 weeks. Pre-requisites: ANA200, ENG200, MAT200, NPN200. Co-requisites: HUM201, PSY202, ANA202

### **ANA200 Anatomy & Physiology I**

4 Credit Hours  
50 Contact Hours: 30 Lecture / 20 Lab

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

This is the first course in a two-course sequence designed to provide the student with knowledge of human anatomy and physiology starting from the molecular level and progressing to the level of integrated systems. Emphasis is on normal structure and homeostatic function of the human organism, although some clinical examples are included. Scientific criteria and methods are explored as they relate to natural knowledge of the human organism and health sciences. Introductory content includes basic anatomical terminology, basic and biochemistry, cell structure and function, and tissues. The anatomy, histology, and physiology of the following body systems are addressed in both lecture and lab: integumentary system, skeletal system, muscular system, and nervous system. Laboratory sessions include histological examination of tissues, mammalian anatomical dissections, and physiological exercises appropriate to each system. Course Length: 10 weeks. Pre-requisite: none. Co-requisites: ENG200, MAT200, NPN200

### **ANA202 Anatomy & Physiology II**

4 Credit Hours

50 Contact Hours: 30 Lecture / 20 Lab

This anatomy and physiology class is a second quarter equivalent of the two quarter course dealing with structure and function of the human body and mechanisms for maintaining homeostasis within it. Topics include the study of blood, cardiovascular system including lymphatic system, immune system, respiratory system, digestive system, urinary system and male and female reproductive systems. Emphasis is placed on the integration of systems as they relate to normal health. Laboratory exercises provide first-hand experience with the structure and processes discussed in lecture. Course Length: 10 weeks. Pre-requisite: ANA200, ENG200, MAT200, NPN200.

Co-requisites: HUM201, SOC201, PSY202

### **COM201 Nursing Informatics**

4 Credit Hours

40 Contact Hours: 40 Lecture

This course focuses on understanding the fundamentals of computer systems and how they might be applied to support nursing and health care administration. It emphasizes the use of computer applications software for Internet research as well as data analysis and reporting. Basic knowledge of computers and Windows environment is required for this course. Course Length: 10 weeks. Pre-requisites: ANA200, ENG200, MAT200, NPN200, HUM201, SOC201, PSY202, ANA202. Co-requisites: PHA212, NPN203

### **ENG200 English Composition\***

4 Credit Hours

40 Contact Hours: 40 Lecture

This course covers the development of composition skills through purposeful reading, logical thinking, and the application of principles of rhetoric. Includes practice in the selection, restriction, organization and development of topics. It also reinforces the student's facility with sentence structure, diction and mechanics. Course Length: 10 weeks. Pre-requisites: none. Co-requisites: none

### **MIC212 Microbiology\***

4 Credit Hours

50 Contact Hours: 30 Lecture / 20 Lab

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

Basic concepts of microbiology with emphasis on microbial pathogenesis and immunity. Medically important microorganisms including bacteria, fungi, viruses, rickettsia, protozoa, and the diseases which they produce will be studied. Laboratory exercises develop fundamental skills in aseptic technique, microscopy, pure culture study, and the isolation and identification of pathogenic microorganisms. Course Length: 10 weeks. Pre-requisites: none.

### **NPN200 LPN Role Transition**

2 Credit Hours

20 Contact Hours: 20 Lecture

This course is designed to augment the Licensed Practical Nurses' basic knowledge and skills with professional concepts and skills required of a registered nurse. The nursing process is used throughout to enhance the student's knowledge of assessment and the accompanying skills that reflect professional practice. Nursing care plans with teaching plans are developed to enhance critical thinking. The realm of the registered professional nurse will be provided through theoretical content. The LPN student will identify appropriate nursing responses to the client's self-care deficits by utilizing Dorothea Orem's Nursing Theory. Course Length: 10 weeks. Pre-requisites: none.

### **NPN203 Trans-Cultural Nursing**

4 Credit Hours

40 Contact Hours: 40 Lecture

This course will offer an introduction to the concepts of trans-cultural nursing originally developed by Madeleine Leininger. The course will focus on cultural and spiritual differences and similarities related to human health and illness, among individuals, families and communities across the lifespan. The course will provide the learner with specific, competent, and congruent nursing interventions to care for people of diverse cultures. An overview of important terminology such as race, ethnicity, culture, cultural values, ethnography, and diverse nursing care, with the course goal being culturally specific healthcare, will be the framework for this course. Course Length: 10 weeks.

Pre-requisites: SOC201, PSY202. Co-requisites: none

### **PSY202 Developmental Psychology\***

3 Credit Hours

30 Contact Hours: 30 Lecture

This course provides an introduction to physical, cognitive, social, and emotional development from conception through adolescence by means of lectures, in-class participation, assignments, and exams. Course Length: 10 weeks. Pre-requisites: none

### **PHA202 Advanced Pharmacology**

4 Credit Hours

40 Contact Hours: 40 Lecture

This course will offer a clear approach explaining drug prototypes and how they work to include drug mechanisms and effects. It will provide the background needed to understand related drugs currently on the market, as well as drugs yet to be released. In simplifying a complex subject, this course focuses on the essentials of pharmacology and will identify the major nursing implications and their application to the clinical setting. Specifically this course will focus on the following: central nervous system, autonomic nervous system, cardio-pulmonary system, anti-microbials, anti-inflammatory and endocrine agents. A review of over the counter and herbal preparations will also be discussed. Course Length: 10 weeks. Pre-requisites: ANA200, NPN200, ANA202. Co-requisites: none

### **MAT200 College Algebra\***

4 Credit Hours

73

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

40 Contact Hours: 40 Lecture

This course is a functional approach to algebra that incorporates the use of appropriate technology. Emphasis will be placed on the study of functions, and their graphs, inequalities, and linear, quadratic, piece-wise defined, rational, polynomial, exponential, and logarithmic functions. Appropriate applications will be included. Course Length: 10 weeks.

### **NPN208 Medical Surgical Nursing I**

4 Credit Hours

60 Contact Hours: 30 Lecture / 30 Clinical

This course will build on concepts from previous courses, focusing on health management, maintenance and prevention of illness; care of the individual as a whole and deviations from the normal state of health. The administration of patient care includes using the nursing process, performing focused assessments, using critical thinking, and assisting with patient education. The systems included are integumentary, musculoskeletal, respiratory, cardiac, vascular and hematology. The concepts of patient care; treatments, pharmacology, and diet therapy are included within each system. Content is presented from a patient-centered approach based on Maslow's Hierarchy of Needs. Patient care includes consideration of physiological, cognitive, psychosocial, and spiritual needs. Consideration is also given to the impact of health issues; the potential physical and mental adjustments as well as diversional and rehabilitative activities.

### **NPN209 Mental Health Nursing**

4 Credit Hours

60 Contact Hours: 30 Lecture / 30 Clinical

This course provides an overview of selected theories of human behavior which guide the nursing care of persons across the lifespan who are on various points of the mental health –illness continuum. Emphasis is placed on the therapeutic use of self in the application of the Nursing Process. The student has opportunities to participate as a member of the interdisciplinary mental health team and to provide nursing care to individuals who have acute and or severely disabling mental disorders. Clinical experience is provided in both public and private, acute and community mental health facilities. Students will be assigned to either the public or private acute setting. Course Length: 10 weeks. Pre-requisites: SOC201, PSY202, NPN203.

### **NPN210 Medical Surgical Nursing II**

4 Credit Hours

60 Contact Hours: 30 Lecture / 30 Clinical

This course provides essential information relative to the management of patients with health problems resulting from alterations in various body systems. Emphasis is placed on providing safe and knowledgeable nursing care to adults while utilizing critical thinking within the nursing process and practicing within the scope of the Registered Nurse. Selected topics of system disorders include: neurologic, sensory, renal, reproductive, digestive and gastrointestinal function/disorders, and oncology, Laboratory and clinical experiences are designed to compliment, integrate, and enhance this knowledge of health alterations and to assist with the application of holistic and therapeutic nursing care to adults in a variety of clinical settings. Course Length: 10 weeks. Pre-requisites: none

### **NPN211 Maternal Health/OB Nursing**

5 Credit Hours

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

80 Contact Hours: 30 Didactic / 20 Lab / 30 Clinical

Maternal-Infant Nursing is a course designed to correlate theory and clinical practice in providing care during the antepartum, intrapartum, and postpartum periods for the child and family. Physiological, psychosocial needs, as well as developmental tasks of the mother, father, infant and the Childbearing family is emphasized. Health perception -health management, nutritional metabolic, role-relationship, sexuality-reproduction, and coping stress tolerance are the functional health patterns addressed. The student assists the registered nurse using the systematic problem – solving approach (nursing process) to meet the basic health and educational needs of the childbearing family. Course Length: 10 weeks. Pre-requisites: NPN210

### **NPN212 Pediatric Nursing**

4 Credit Hours

60 Contact Hours: 30 Lecture / 30 Clinical

Emphasizes family-centered nursing care of the child rearing family through a combination of preventative, maintenance, and restorative nursing measures. The student is provided with multiple opportunities to implement nursing care to child rearing families and to look at developmental milestones, family, and applicable research findings. Course Length: 10 weeks. Pre-requisites: NPN211

### **NPN213 Community Health Nursing**

5 Credit Hours

80 Contact Hours: 40 Lecture / 30 Clinical

This course focuses on health promotion, disease prevention, and the health maintenance needs of aggregates in populations. Emphasis is placed on application of nursing process, case management, and health teaching for groups of clients in a variety of community agencies. A major focus of the course will be to participate in community assessments and establishment of statistical databases to promote analysis and development of interventions to achieve positive outcomes for change. Analysis of the acceptability, availability, and accessibility of needed services to improve the health status of aggregates and to identify barriers to health care will be studied. Course Length: 10 weeks. Pre-requisites: NPN210

### **ANA101N Anatomy and Physiology**

4 Credit Hours

40 Contact Hours: 40 Lecture

This course introduces the structure and function of the human body. The cells and tissues of the human body are presented along with the basic structure and physiology of the Cardiovascular, Respiratory, Urinary, Reproductive, Integumentary, Skeletal, Muscular, and Nervous systems. It includes examination of the basic structure and physiology, including the structure and function of cellular metabolism, chemistry and an introduction to microbiology. Course Length: 10 weeks. Pre-requisites: none.

### **MNA100 Certified Nurse Assistant**

6.5 Credit Hours

81 Contact Hours: 55 Lecture / 10 Lab / 16 clinical

This course is designed to prepare students for entry level employment as a Nurse Aide. The objective of this course is to prepare the nurse aide to provide high quality, direct patient care under the supervision of licensed nurse personnel.

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

Upon completion of the program a nurse aide will have a working knowledge of the physiological, psychological and sociological impact of institutionalization on the nursing facility resident. Upon conclusion of this course students will sit for licensure as a Medicaid Nurse Aide. Course Length: 10 weeks. Pre-requisites: none.

### **MED100N Medical Terminology**

4 Credit Hours

40 Contact Hours: 40 Lecture

This course focuses on analyzing and combining prefixes, root words, and suffixes. The spelling, meaning, and pronunciation of these components, and commonly used medical terms, are presented. Included are medical abbreviations. Course Length: 10 weeks. Pre-requisites: none.

### **MED105N Medical Mathematics**

4 Credit Hours

40 Contact Hours: 40 Lecture

This course offers a review of the math skills and understanding other mathematical processes needed for healthcare mathematics and related courses. Mathematical operations covered include: whole numbers, fractions, decimals, percentages and algebra. Course Length: 5 weeks. Pre-requisites: none.

### **MIC100 Microbiology**

2 Credit Hours

20 Contact Hours: 20 Lecture

This course introduces a brief history of persons involved with early development of microbiology, the study of microorganisms (fungi, parasites, bacteria, & viruses) in relation to health and disease. Discussed are the impact that these organisms have on the human body in health and wellness. The concepts of infection and immunity will also be examined. Also included will be Standard/Transmission Precautions, OSHA Standards, and Health and Safety measures in health care arena. Course Length: 10 weeks.

### **NPN100 Introduction to Practical Nursing**

6 Credit Hours

120 Contact Hours: 30 Lecture / 90 clinical

Introduction to history of nursing, healthcare system, roles and responsibilities of healthcare team with emphasis on nursing; role of practical nursing, development of therapeutic communication skills, legal standards for nursing practice, KBN regulations, development awareness of culture and diversity, importance of professional and student organization, safety and hygiene, infection control/ asepsis, standard precaution, isolation, and vital signs pertaining to physical assessment skills. Course Length: 10 weeks. Pre-requisites: MED100, MNA100, MED105. Co-requisites: ANA101N.

### **NPN110 Fundamentals of Practical Nursing**

6 Credit Hours

120 Contact Hours: 30 Lecture / 90 clinical

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

Introduction to practical nursing skills procedures requiring medical/surgical asepsis and "Nursing Process" as a basis for problem solving related to needs of general physical and emotional condition of the client across the lifespan; emphasis on nursing documentation and subsequent care which will meet the legal standard of nursing practice. It is designed to progress from the simple to the more complex. Students will practice basic skills, techniques in the fundamental laboratory and then progressing to the clinical experiences which will be at area hospitals, long term care facilities, rehabilitation units, clinics and community settings. Course Length: 10 weeks. Pre-requisites: NPN100, MED105, ANA101N. Co-requisites: PHA100.

### **NPN120 Medical Surgical Nursing I**

6 Credit Hours

120 Contact Hours: 30 Lecture / 90 clinical

This course introduces concepts of health and illness. This course provides essential information relative to the management of patients with health problems resulting from alterations in various body systems. Emphasis is placed on providing safe and knowledgeable nursing care to adults while utilizing critical thinking within the nursing process. Selected topics of system disorders include: cardiovascular, respiratory, musculoskeletal, and integumentary. Laboratory and clinical experiences are designed to compliment, integrate, and enhance this knowledge of health alterations and to assist with the application of holistic and therapeutic nursing care to adults in a variety of health care setting. Course Length: 10 weeks. Pre-requisites: NPN100, NPN110.

### **NPN130 Medical Surgical Nursing II**

6 Credit Hours

120 Contact Hours: 30 Lecture / 90 clinical

This course is a continuation of Medical Surgical nursing; areas of study include alternations in hematological, lymphatic/immune, endocrine, and gastrointestinal. Emphasis is placed on the application of the nursing process and health promotion in the support of basis human needs, critical thinking, and providing clients with safe and competent care; including principles that govern practical nursing standards. Course Length: 10 weeks. Pre-requisites: NPN100, NPN110, PHA100, NPN120, PHA200.

### **NPN131 Pediatric Nursing**

4 Credit Hours

70 Contact Hours: 25 Lecture / 45 clinical

This course introduces concepts in the application of caring for children in various phases of development. The stages of childhood development that are examined include the newborn, infant, toddler, preschooler, school-age child, and the adolescent. The focus is on basic growth and development, and on nursing care in children with real and potential health disorders, common within the pediatric population. Essential information is presented that is necessary for the understanding of health and health alterations in children and the roles and responsibilities of the practical nurse. Laboratory and clinical experiences provide opportunities in applying the nursing process while caring for and meeting the needs of the pediatric client in a variety of diverse clinical settings. Course Length: 10 weeks. Pre-requisites: NPN141, PHA200

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

### **NPN140 Medical Surgical Nursing III**

6 Credit Hours

120 Contact Hours: 30 Lecture / 90 clinical

This course is a continuation of Medical Surgical Nursing II. This course provides essential information relative to the management of patients with health problems resulting from alterations in various body systems. Emphasis is placed on providing safe and knowledgeable nursing care to adults while utilizing critical thinking within the nursing process and practicing within the scope of Practical Nursing. Selected topics of system disorders include: neurologic, sensory, renal, and reproductive. Laboratory and clinical experiences are designed to complement, integrate, and enhance this knowledge of health alterations and to assist with the application of holistic and therapeutic nursing care to adults in a variety of clinical settings. Course Length: 10 weeks. Pre-requisites: NPN100, NPN110, NPN120, NPN130, NPN131, NPN141.

### **NPN141 Maternal/Newborn Nursing**

4 Credit Hours

70 Contact Hours: 25 Lecture / 45 clinical

This course introduces the concepts of the reproductive processes. This course presents essential information necessary for understanding health and the issues in the wellbeing of the childbearing family. Emphasis is placed on the application of nursing care for the maternal/newborn clients during their antepartum, intrapartum, and postpartum phases within scope of legal and ethical parameters of Practical Nursing standards. Laboratory and clinical opportunities provide experience in applying the nursing process in the prenatal period, during labor and delivery, the post-partum period in a variety of clinical settings. Course Length: 10 weeks. Pre-requisites: NPN,110, PHA100.

### **NPN151 Psychiatric/Mental Health Nursing**

4 Credit Hours

70 Contact Hours: 25 Lecture / 45 clinical

This course introduces the concepts of psychiatric health. This course presents essential information necessary for understanding mental health and illness. The focus is placed on the application of the nursing process in caring for clients who experience mental health alterations and by incorporating the roles and responsibilities of the psychiatric nurse. Emphasis is placed on the restoration and protection of the mental health of individuals and groups. Clinical experiences allow for opportunities to provide care to clients with psychiatric issues. A variety of clinical settings will be used to provide learning experiences in the continuum of mental health treatment using the standard legal scope of Practical Nursing. Course Length: 10 weeks. Pre-requisites: NPN120, PHA200. Co-requisite: NPN130.

### **NPN152 Long Term Care/Geriatric Nursing PN Leadership Role**

4 Credit Hours

70 Contact Hours: 25 Lecture / 45 clinical

This course presents the concepts and principles of Gerontological nursing. This course provides the necessary information for understanding the processes of normal aging. The focus is on gaining knowledge that will assist in maximizing the health promotion and maintenance of the geriatric client. Emphasis is placed on special topics in caring for the older adult that includes: physiologic and cognitive alterations, social needs, end of life care, along with nutritional, communication, and safety issues. Clinical experiences are designed to allow for the integration of the nursing process while caring for the aging population in a variety of settings. Course Length: 10 weeks. Pre-requisites: Final quarter of PN coursework.

### **NPN214 Acute Care Nursing**

7 Credit Hours

130 Contact Hours: 40 Lecture / 90 Clinical

## 8 PN PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

This course focuses on the care of adult patients experiencing complex, multi-system health problems, including shock, and trauma, Designed to refine, deepen, and extend critical thinking skills in situations where dynamics of core survival are threatened. Guided by established professional standards, guidelines, competencies, and best practices, clinical experiences provide learners the opportunity to apply psychomotor skills, psychosocial concepts, communication, legal and ethical responsibilities, and the nursing process to provide safe, quality, and patient centered nursing care for adult patients. Course Length: 10 weeks. Pre-requisites: NPN210, PHA202.

### **NPN220 Leadership and Management**

6 Credit Hours

100 Contact Hours: 40 Lecture / 60 Clinical

Leadership/Management in Nursing is a quarter long course designed to prepare the Licensed Practical Nursing student to function as Registered Nurse. Focus includes the managerial/leadership role, interdisciplinary practice, legal challenges of clinical practice, and trends within the nursing profession. Critical thinking and problem solving skills will be employed through group exercises and independent study with consideration for the Registered Nurse scope of practice. Course Length: 10 weeks. Pre-requisites: ANA200, ENG 200, MAT200, NPN200, HUM201, SOC201, PSY202, ANA202, COM201, PHA202, COM201, PHA202, NPN203, MIC212, NPN 208, 209, 210, 211, 212, 213, 214.

### **HUM201 American Literature\***

4 Credit Hours

40 Contact Hours: 40 Lecture

American Literature surveys a range of work produced in the United States of America from the time of the European immigrations of the 1600s through the post-Civil War era. Representative literary works by men and women from diverse ethnic, racial, and social groups are studied in their historical, social, political, and economic context for what they both reflect and reveal about the evolving American experience – including fiction, nonfiction and writings from the American Revolution. This course is writing intensive. Course Length: 10 weeks. Pre-requisites: none.

### **PRA215 The Integrated Practicum**

6 Credit Hours

160 Contact Hours: 120 Clinical / 40 Lab

This course builds on the knowledge and skills obtained in the nursing curriculum concepts. In varied/diverse practice settings. Synthesis of management, organizational culture and Interpersonal, relationship principles are applied with developing independence in the practice of nursing. This course facilitates the student's evaluation of principles and practices of the profession of nursing while assisting in the role transition to a practice registered nurse. Clinical environments could be, but are not limited to: medical-surgical, mental health, pediatric, maternity, critical care, nursing home and extended or ambulatory care units. Course Length: 10 weeks. Pre-requisites: ANA200, ENG200, MAT200, NPN200, HUM201, SOC201, PSY202, ANA202, COM201, PHA202, NPN203, MIC212, NPN208, NPN209, 210, 212. Co-requisite: NPN220.

## 8 LPN TO RN BRIDGE PROGRAM COURSE DESCRIPTIONS

\* ALL COURSES OFFERED IN A RESIDENTIAL FORMAT

### **PHA100 Pharmacology/Medication Math 1**

4 Credit Hours

40 Contact Hours: 20 Lecture

This course provides an introduction of the study of drugs; examined are the concepts of measurement of systems, drug orders, drug labels, and drug dosage calculations. Emphasis will be placed on techniques used to administer commonly used drugs; included are the classifications, indications, actions, contra-indications, side effects, nursing implications for administration and pertinent client teaching in the use of these various agents. Also included will be ethical and legal responsibilities of the practical nurse in administering medications and common therapeutic and diagnostic procedures with pharmacological implications. Pre-requisites: MED105.

### **PHA200 Pharmacology/Medication Math II**

4 Credit Hours

40 Contact Hours: 20 Lecture

This course is a continuation of Pharmacology/Medication Math I, including the introduction of Intravenous Therapy along with preparation, assessment, planning, implementation, calculation of IV flow rates. Emphasis is placed on the classification of drugs that are prescribed to treat cardiovascular, endocrine, respiratory, gastrointestinal, reproductive disorders, vaccines and drugs that interfere with microbial growth. Included is the developmental skills for administration of oral and parenteral medications denoting and using the nursing process. Also included will be Florida Board of Nursing guidelines for administration of medications within the scope of Practical Nursing. Course Length: 10 weeks. Pre-requisites: PHA100.

### **PRA100 Integrated Practicum**

4 Credit Hours

120 Contact Hours: 120 Clinical

This clinical provides essential information relative to the management of patients with health and mental needs resulting from alterations in various body systems. Emphasis is placed on providing these individuals with safe and competent nursing care to all while incorporating critical thinking strategies within the nursing process while practicing within the scope of Practical Nursing. This practicum must be completed within a nine week period during the final quarter of the nursing program and is regulated by the Florida Board of Nursing. It is described as "capstone experience" which is defined as an opportunity for students to demonstrate that they have achieved their goals for learning established by their educational institution and major.. Pre-requisites: Final 10 weeks of the program.

**STUDENT COMPLAINT/  
GRIEVANCE POLICY**

9

## 9 STUDENT COMPLAINT / GRIEVANCE POLICY

### FOR ALL STUDENTS AT ALL CAMPUSES

A student may not always agree with a decision or policy. Students have the right to air their concerns or complaints through the following procedures.

Concerns should first be brought to the attention of an instructor, then the Director of Education in an attempt to resolve the situation. Any discussions must be documented. Complaints that are not satisfactorily resolved in this manner should be submitted in writing to the Campus Director. Written responses to such complaints shall be given within five working days.

Any complaint still not satisfactorily resolved in this manner must be forwarded in writing to the ATA Executive Committee. A written response to such a complaint will be given within 10 working days.

If a student does not feel that the school has adequately addressed a complaint or concern, the student may consider contacting the Accrediting Bureau of Health Education Schools, (ABHES). Inquiries may be directed to the following:

The Accrediting Bureau of Health Education Schools (ABHES)
